Capstone Final Exam Part One:

Connecting Adult Learning and Knowledge Management Monica Fedeli, Laura L. Bierema, 2019-11-25 This multidisciplinary book represents an initial attempt to connect adult learning and knowledge management in theory and practice. It provides educators, learners, and organizational development professionals with new strategies and resources for developing active and effective pedagogies which in turn prepare learners and practitioners to manage knowledge in organizations and higher education. To do so, it gathers contributions and case studies from a diverse global team of authors and provides a theoretical and practical outline of new strategies and methods for facilitating adult teaching and learning. It also provides a fresh reading of active learning methods by adopting a knowledge management viewpoint that is broadly applicable whether helping students master content in university courses or helping organizations learn and change. The book is divided into three main sections: a) methods and theories for adult teaching and learning; b) knowledge management in education; and c) case studies and best practices that consider classroom learning, higher education change, and organization development.

Proceedings of The 23rd European Conference on Research Methods in Business and Management Sandra Moffett, The European Conference on Research Methodology in Business and Management (ECRM) is a longstanding academic conference held annually for 24 years dedicated to advancing the understanding and application of research methodologies in the fields of business and management. The conference provides a forum for scholars, researchers, and practitioners to share insights, explore new approaches, and discuss the challenges and innovations in research methods. ECRM is known for its rigorous peer-reviewed proceedings, ensuring that the research presented meets high academic standards. By covering a wide range of methodological issues and innovations, the conference plays a crucial role in shaping the future of research in business and management, promoting the development of robust and impactful research practices. The Proceedings of the 24th ECRM 2025 includes academic research papers, a PhD research paper, and a Masters research paper, as well as a work in progress paper, which have been presented and discussed at the conference. The proceedings are of an academic level appropriate to a research audience, including graduates, post-graduates, doctoral, and post-doctoral researchers. All papers have been double-blind peer-reviewed by members of the Review Committee.

Public Sociology Capstones Martin Tolich, 2018-04-17 Social science departments, both nationally and internationally, market boundless career destinations for their graduates but fail to identify the pathways to these lucrative destinations and appear oblivious to the social forces that threaten their existence, such as the discerning parent's investment in their offspring's education and mounting individual student debt. This book responds to these social forces, drawing on Michael Burawoy's model of Public Sociology to show how a research-centred experiential internship provides opportunities for students to draw on their prior learning and realise their potential to create pathways towards employment. The author demonstrates how a specific research-based course leading to

employment with a non government organisation or government department was evaluated and incrementally developed giving voice to its multiple beneficiaries Designed for university teachers this book will appeal to those in social science departments who are using an internship service learning or capstone model for their senior undergraduate classes
