

## MATHEMATICAL LITERACY – GRADE 12 NOTES

### CHAPTER 6

#### 6.1 Interpreting and analysing data

Purposes of graphs:

- a way of exploring the relationships in data
- a way of displaying and reporting data
- making it easier to report patterns and relationships, shapes of distributions and trends.

Any graph used to report findings should show:

- the significant features and findings of the investigation in a fair and easy-to-read way
- the underlying structure of an investigation in terms of the relationships between and within the variables
- the dependent variable on the horizontal ( $x$ ) axis and the independent variable on the vertical ( $y$ ) axis.

#### Types of graphs

We have the following types of graphs:

- Line graph
- Bar graph
- Histogram
- Scatter plot
- Pie chart
- Box and whisker plot

#### 6.1.1 Line graphs

In data handling we use line graphs to show the relationship between two quantities. A line graph is formed by using straight lines to join data points which have been mapped on a grid. It is used to show the change of information over time.

#### Worked example 10

The table below shows the average number of minutes per month that Jabu spent watching TV from January to November last year.

Month	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov
Daily TV viewing time (min)	108	103	108	120	115	122	116	105	110	105	104

- Plot this data on a set of axes.
- Can you observe any trends or patterns in the data? Give some possible reasons for these trends.
- Would you be able to represent this data on a bar graph?
- What is the advantage of using a line graph to show this information?

**Study and Master Mathematical Literacy Grade 12 CAPS Learner's Book** Karen Morrison, Karen Press, 2014-05-01

*Education Systems Around the World* Gilson Porto, 2020-04-08 This book *Education Systems Around the World* is a collection of reviewed and relevant research chapters that offer a comprehensive overview of recent developments in the field of social sciences and humanities. The book comprises single chapters authored by various researchers and edited by an expert active in the field of social studies and humanities. All chapters are unique but are united under a common research study topic. This publication aims to provide a thorough overview of the latest research efforts by international authors on social studies and humanities and open new possible research paths for further novel developments. **EBOOK: Becoming**

**a Teacher: Issues in Secondary Education** Meg Maguire, Simon Gibbons, Melissa Glackin, David Pepper, Karen Skilling, 2018-02-16 *Becoming a Teacher* provides a broad context for understanding education addressing issues such as the influence of international policy and practice, education ideology and social justice. This is balanced with practical advice for the classroom on topics such as assessment for learning, learning technologies, literacy, numeracy and English as an additional language. *Becoming a Teacher* draws extensively on contemporary research and empirical evidence to support critical reflection about learning and teaching. Encouraging you to reflect on your knowledge and beliefs, it explores some of the complex social and cultural influences that influence professional learning and practice. The approach chimes with the government's recognition that trainee teachers should take a research-informed approach towards classroom practice. The fifth edition is refreshed and revitalized throughout with a complete revision of each chapter, new chapters on Reforming ITE, Teachers' Lives and Careers, International Influences, Engagement and Motivation, Learning and the Emotions, Data Usage in Schools, Safeguarding and Learning with Digital Technologies, up-to-date referencing of research findings, insightful policy analysis, critical commentary on issues. For those training to teach in secondary school on a Postgraduate Certificate in Education (PGCE) or a School Direct programme or taking an undergraduate or postgraduate Education Studies course, *Becoming a Teacher* provides invaluable support, insight and guidance. With every new edition, this book confirms its place as one of the most commanding, authoritative and influential texts in teacher education. Meg Maguire's leadership of this new editorial team means that this book remains my umbilical cord to those pivotal principals that I cherish in education: integrity, passion, critical engagement and transformation. Gerry Czerniawski, Professor of Education, University of East London, UK. An excellent contribution to the Teacher Education and development literature. Many of the authors are leading thinkers in their field and as such, the book offers a significant breadth, depth and coherence to the teacher development discourse. Professor David Spendlove, School of Environment, Education and Development, The University of Manchester, UK. **Research on Reasoning with Data and Statistical Thinking: International Perspectives** Gail F. Burrill, Leandro de Oliveria

Souza, Enriqueta Reston, 2023-07-21 This book is derived from selected papers from the Fourteenth International Congress on

Mathematical Education Topic Study Group 12 Teaching and Learning Statistics It describes recent research on curriculum pedagogy and outreach initiatives from countries as diverse as Brazil Chile Columbia Denmark Germany the Netherlands Spain Sweden Thailand Turkey the United Kingdom and the United States The book has a focus on the use of data in the teaching and learning of statistics across grade levels and begins with an overview of the status of statistics education and the use of data from seven different countries across the continents and the link between research and practice in those countries Because it contains specific examples of the research for example on the ways children learn the choice and implementation of tasks or the role of informal inference the book will be a great resource to those interested and involved in the teaching of statistics curriculum developers and statistics education researchers

*Teaching Reading Comprehension to English Learners in Secondary Schools: A Research-Based Approach* Cekiso, Madoda, Olifant, Florence, Mokhtari, Kouider, 2025-04-23 Teaching reading comprehension to English learners ELs in secondary schools presents unique challenges as these students must navigate the complexities of academic texts and the intricacies of language acquisition Effective instruction requires a research based approach that considers the diverse linguistic cultural and cognitive backgrounds of these learners Recent studies highlight the importance of integrating strategies that build both language proficiency and content knowledge essential for helping ELs develop the skills needed to comprehend complex materials Fostering metacognitive awareness through strategies like summarizing questioning and making connections can empower students to become active and strategic readers This approach recognizes the need for a supportive inclusive classroom environment that encourages language development while promoting academic achievement in content areas Further research may help educators provide English learners with the tools to thrive as capable readers in secondary school

*Teaching Reading Comprehension to English Learners in Secondary School A Research Based Approach* explores various aspects of teaching reading comprehension to English Second Language ESL learners in secondary schools It examines current challenges and evidence based strategies in reading comprehension This book covers topics such as language learning reading strategies and teacher training and is a useful resource for academicians researchers and scientists

**Twenty-Twenty Hindsight** Mosiuoa Sekese, 2013-05-16 Twenty twenty hindsight means perfect understanding of events only after they have happened In his book Mosiuoa Sekese looks back on his life in the old and new South Africa and gives his own perceptive interpretation of the past events Sekese suffered discrimination and prejudice under the old apartheid government as well as the new democratic regime His story is highly personal but provides the reader with unique insights into the social and educational challenges that South Africa continues to grapple with I had a quick read and I find the content heartbreaking but fascinating Especially as a white South African you are drawing me into a world that I always knew existed but which few people have the guts and conviction to paint into words Louise Heystek Emerton CEO Wordwise Khuluma Awethu

Mathematical Literacy Grade 12 CAPS Cornelia G. Turner,Claudia Bischofberger,2014-06-26 **Educational Leadership in Becoming** Nuraan Davids,Yusef Waghid,2016-08-25 Educational Leadership in Becoming reconsiders educational leadership in its current forms and presents a more plausible form of educational leadership to contend with the complexities currently found in universities and schools Much of the literature in vogue concerning educational leadership ranges from transactional to transformative representations of the concept in relation to educational management and policy curriculum inquiry and pedagogical action The primary aim of this book is to revisit some of the dominant understandings of educational leadership and to offer an extended view of the practice along the lines of potentiality and becoming Davids and Waghid argue that all current forms of educational leadership are insufficient to enact responsible human action particularly when it comes to addressing the combined issues of globalisation and equitable redress and transformation whether in relation to leading schools or universities The primary objective of the book is to draw on the Agambian notion of becoming in order to show that an educational leadership in becoming is better placed to not only address the myriad challenges besetting education but to also enhance the potential of leadership in action The book addresses an international audience by analysing conceptions of transformative leadership and should be read by anyone who is interested in education and educational leadership as well as the impact of neoliberal agendas on education and society It should also appeal to those interested in the philosophy of education **Chapter 2 Allocations Plan for the State of California** ,1994 *ERIC Educational Documents Index, 1966-69: Minor descriptors and author index* ,1970 Thrust for Educational Leadership ,1985 *ERIC Educational Documents Index* Educational Resources Information Center (U.S.),1966 A subject author institution index which provides titles and accession numbers to the document and report literature that was announced in the monthly issues of Resources in education earlier called Research in education **Developing Minds: A resource book for teaching thinking** Arthur L.
