CBR250R,RR**1. Maintenance Information**

In order to reduce friction loss and to operate valves in accurate timing, gear drive cam system is applied.

The figure below shows the linkage between the crankshaft and the cam gears.

The crankshaft power is transmitted to the cam gear through the primary drive gear (pitch circle gear), which is on the same side for the transmission main shaft.

This mechanism is quite different from the V-pump drive system, which the crankshaft directly drives cam gears.
