Microsoft Exchange Server 5.5 Tony Redmond, 1998-07-17 Microsoft Exchange Server 5.5 Planning Design and Implementation describes the best practices used during the planning design and implementation phases of projects to deploy Microsoft Exchange Server. It incorporates the author's general expertise gained from 16 years working with corporate messaging systems as well as experience gained from enterprise level projects around the world including Digital's own deployment of 55 000 Exchange clients across 160 servers. The new functionality of Exchange V5.5 is covered but the real value lies in the pragmatic and practical attitude taken to solving the problems posed by large scale implementations of any messaging system. This book shows system designers implementation teams and e-mail administrators what Exchange V5.5 is capable of and where it needs human assistance to succeed. Covers Exchange 5.5 SP1 and advanced security and message journaling. Describes best practice used during the planning design and implementation phases of deploying Microsoft Exchange Server.
