## **Cce Teachers Manual:**

To The Principal Shankar Musafir, 2011-07-01 Here at last is a down to earth written with humour and largeness of spirit about the day to day practices of schools which if reinvented could make them into dynamic learning environments rather than what they are today The book looks at how every aspect of school life can be made meaningful for a child s education in a brave new world With a practical and inquisitive approach the book explores aspects of school life including experiments practicals examinations civil society teacher s training the library the art room the Principal s office school administration and so on The reader is taken on an eye opening and irresistible tour of the school to places and spaces we all take for granted but which perhaps need to be reinvented for a modern era The author looks at the small yet important things in schools and their impact on the modern child How can we reinvent these things bearing in mind that children clearly question their merit and value in their contemporary lives Do the singing of patriotic songs and flag hoisting mean anything to the child in the audience Does it connect him her in any way to the concept of individual and collective freedom and Indian sovereignty What should schools do Shankir Musafir brings his extensive experience as an educationist to put together ideas solutions and suggestions to create a meaningful educational experience for every teacher administrator and school child
