Bilingual Special Education for the 21st Century: A New Interface Colón, Gliset, Alsace, Tamara O., 2022-05-13 Bilingual students with disabilities have an established right to be educated in their most proficient language. However, in practice, many culturally and linguistically diverse students still do not receive the quality of education that they are promised and deserve. Multilingual learners with disabilities must be acknowledged for the assets they bring and engaged in classroom learning that is rigorous and relevant. *Bilingual Special Education for the 21st Century: A New Interface* addresses the complex intersection of bilingual education and special education with the overlay of culturally and linguistically sustaining practices. This work provides practical solutions to current dilemmas and challenges today's educators of multilingual learners with disabilities face in the classroom. Covering topics such as dual language education, identification practices, and transition planning, this book is an essential resource for special education experts, faculty, and administration of both K-12 and higher education, pre-service teachers, researchers, and academicians. *Literacy Assessment and Intervention for Classroom Teachers* Beverly A. DeVries, 2023-04-25 The Sixth Edition of this comprehensive resource helps future and practicing teachers recognize and assess literacy problems while providing practical, effective intervention strategies to help every student succeed. DeVries thoroughly explores all major components of literacy, offering an overview of pertinent research, suggested methods and tools for diagnosis and assessment, intervention strategies and activities, and technology applications to increase students' skills. Substantively updated to reflect the needs of teachers in increasingly diverse classrooms, the Sixth Edition addresses scaffolding for English language learners and the importance of using technology and online resources. It presents appropriate instructional strategies and tailored teaching ideas to help both teachers and their students. The valuable appendices feature assessment tools, instructions, and visuals for creating and implementing the book's more than 150 instructional strategies and activities, plus other resources. New to the Sixth Edition: Up to date and in line with national, state, and district literacy standards, this edition covers the latest shifts in teaching and the evolution of these standards. New material on equity and inclusive literacy instruction, understanding the science of reading, using technology effectively, and reading and writing informational and narrative texts. New intervention strategies and activities are featured in all chapters and highlight a stronger technology component. Revamped companion website with additional tools, videos, resources, and examples of teachers using assessment strategies. **Cumulative Subject Index to Psychological Abstracts**, 1969 **Books In Print 2004-2005** Ed Bowker, Staff, Staff Bowker, Ed, 2004 **CVVC Words with 371 Flash Cards (Illustrated Dictionary)** Kavitha M., 2020-03-07 Need for this book: Kids are curious in learning new things.
