Konstantina Rentzou, Ruslan Slutsky, 2020-05-21 This book captures information about early childhood education and care ECEC policies and practices in different countries and aims to question the degree to which these countries have managed to meet the needs of children families and the ECEC workforce The book illustrates how different countries have adapted different strategies focusing on policy when it comes to quality ECEC The goal of the book is twofold First and foremost it aims to present key findings and challenges for improving ECEC as a whole Second it aims to highlight problems and concerns which the field of ECEC faces with respect to delivering high quality care and education to all children As neither ECEC nor quality are universal concepts but are shaped by social cultural values as well as national economic and political contexts in which ECEC services are provided this cross country volume is extremely relevant for fully understanding issues in the field of ECEC This book was originally published as a special issue of Early Child Development and Care Elite Schools in Globalising Circumstances

Jane Kenway, Cameron McCarthy, 2017-10-02 Elite Schools in Globalizing Circumstances foregrounds the richly theoretical and empirically based work of an international cast of scholars seeking to break out of the confines of the methodological nationalism that now governs so much of contemporary scholarship on schooling Based on a 5 year extended global ethnography of elite schools in nine different countries countries defined by colonial pasts linked to England the contributors make a powerful case for the rethinking of elite schools and elite class formation theory in light of contemporary processes of globalization and transnational change Prestigious high status schools have long been seen as critical institutional vehicles directly contributing to the societal processes of elite selection and reproduction This book asserts that much has changed and that these schools can no longer rest on their past laurels and accomplishments Instead they must re cast their heritages and tradition in order to navigate the new globally competitive educational field enabling them to succeed in a world in which the globalization of educational markets the global ambitions and imaginations of school youth and the emergence of new powerful players peddling entrepreneurial models of curriculum and education have placed contemporary schooling under tremendous pressure This insightful and though provoking volume provides a well researched perspective on the nature of contemporary schooling in the globalizing era This book was
