General Education Assessment for Improvement of Student Academic Achievement James Oliver Nichols,Karen W. Nichols,2001 This monograph focuses on general education the one common curricular component that most institutions of higher learning share at the undergraduate level Also known as the core curriculum this uniquely American curricular form is among the common interests of regional accreditation associations throughout the United States In publicly financed institutions it is also the area most likely to be the subject of assessment for accountability efforts by the public and their representatives The monograph is user oriented like the others in the series Specific examples of models of general education assessment activities through use of results to improve student learning are provided for a comprehensive community college a major state university and a private college Users are encouraged to adjust and adapt the models
