

**Test-4 (Code-A)**

Decomposition is a process in which the detritus is degraded into simpler substances by microbes.

**Statement II :**

Decomposition is faster if the detritus is rich in lignin and chitin

In the light of the above statements, choose the correct answer from the options given below :

- (1) **Statement I** is correct but **Statement II** is incorrect
- (2) **Statement I** is incorrect but **Statement II** is correct
- (3) Both **Statement I** and **Statement II** are correct
- (4) Both **Statement I** and **Statement II** are incorrect

**Sol. Answer (1)**

Explanation: Decomposition is the process of conversion of complex organic matter into simple inorganic matter. Under different environmental conditions, the rate of decomposition may vary. If detritus is rich in lignin and chitin, the rate of decomposition is low and for nitrogen rich detritus rate of decomposition is fast.

**critical-constructive didactics** ,2021-10-12 Seminar paper from the year 2015 in the subject Didactics Common Didactics Educational Objectives Methods grade 1 3 University of Trier language English abstract Within the framework of this term paper it will be explained according to Wolfgang Klafki what education theoretical didactics is and what forms of education exist The question of the meaning of categorical education and the function of didactic analysis will also be explored Before

theories and models of didactics can be explained and contexts understood a basic understanding of what didactics is in the first place and which factors play a role here must first be established The question of the meaning of didactics is not easy to answer The word has its origins in the Greek *did skein* which translates as to teach and to instruct or to learn and to be taught Already here it becomes clear that two elementary processes are interrelated and complement each other which has not changed until today Thus didactics is the theory and practice of learning and teaching The focus is on the interaction between teachers and learners Didactics should therefore be a support for mutual interaction between teachers and learners It is a science of action that is intended to provide teachers with a practice oriented way of acting During the 20th century educationalists such as Erich Weniger Paul Heimann and especially Wolfgang Klafki born 1927 who is considered the father of didactics tried to narrow down and define the term in order to finally develop educational theoretical foundations and didactic theories and models      *Report Iowa.
