Bmw X3 Autocad Block:

CAD Data Transfer for Solid Models E.G. Schlechtendahl, 2013-11-11 Principal authors U Kroszynski B Palstr9Sm 1 1
The evolution of concepts and specifications for CAD data exchange The CAD CAM community has witnessed during the last decade the appearance of several specifications as well as proposals for standards which either attempt to cover wider areas or to be more reliable and stable than the others With the rapid evolution of both hardware and software the capabilities offered by CAD systems and CAD based application systems are far more advanced than they were only ten years ago even when they are now based on micro computers or personal computers The situation with standards however is not and cannot be so In order to be reliable and accepted by a wide community of both vendors and users a standard has to be stable This implies a life span of at least a decade This also implies that the standard has to be general and flexible enough to accommodate present as well as expected future developments 1 1 1 IGES The initial development of concepts for CAD data exchange is strongly influenced by the US Integrated Computer Aided Manufacturing ICAM programme that dealt with the development of methods for data exchange In September 1979 a subgroup was established with participation of the National Bureau of Standards the General Electric Company and the Boeing Company The result of this effort was the Initial Graphics Exchange Specification IGES that was published as a NBS report 61 in 1980 Popular Science ,2002-12 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better **AutoCAD Blocks and Dynamic Blocks** Shaun Bryant, 2013 In this AutoCAD Blocks And Dynamic Blocks training course expert author Shaun Bryant shows you how you can design faster with blocks and how dynamic blocks allow for rapid block family development This video tutorial is designed for users that already have a fundamental understanding of AutoCAD Shaun begins by teaching you how to set up simple blocks You will learn the BLOCK command how to change block settings and manage attributes You will work with the BLOCK editor and learn how to edit new or existing blocks As the course progresses Shaun builds your skills up from lesson to lesson each new movie adding to your understanding of the subject You finish off the course by working with Dynamic Blocks and covering best practices for companies Shaun also gives you advanced user tips and tricks to further enhance your block management abilities Resource description page
