## **Basketball Player Rubric:**

**Philosophy of Education** Louis Mazzullo, 2012-09-05 Our current educational initiatives NCLB and Race to the Top are competitive models that reward victory and punish defeat In order to win the Race to the Top we have to hope or plan that our fellow students and teachers as well as our neighboring states and schools will fail Race to the Top therefore insures that we will be a nation of losers and that we will be pitted against our fellow citizens We must engender a more cooperative spirit one that does not endorse an us vs them mentality in which it is believed that the them are taking away from the us We need to reframe our educational philosophy into a model that values each student for his or her individuality and uniqueness that prepares the student with confidence and pride for the worlds of social and civic work and for the personal and professional relationships they will enter upon graduation We need to value the whole child and address key issues that influence our ability to find happiness in accordance with the essence of what it means to be human satisfying interpersonal relationships satisfaction in work commensurate with our interests and skills and satisfying participation in our civic and political spheres in other words to achieve the highest standards of intellectual social emotional physical and spiritual health
