

# MVP Offseason Workouts - Basketball #1

Time	Activity	Notes
0-5 min <b>5 minutes</b>	Warm up -Jog around the block for five minutes or run in place	-Start as slow as walking and gradually speed up to allow the body to warm up
6-15 min <b>10 minutes</b>	Dribbling drills -Cross over, behind the back, spin, between the legs, hesitate w/ step back and cross over -6 of each, with each hand	-Change direction with purpose as if blowing by a defender or "breaking ankles" -Run a zigzag course about 10 feet wide and as long as it takes to make 3 change of directions on each side. Set up cones to indicate locations for changes in direction.
16-20 min <b>5 minutes</b>	Speed/Explosion -15 Drop and jump	-Focus on spending as little time on the ground as possible from the drop
21-25 min <b>5 minutes</b>	Rebounding Backboard toss: -10 defensive, 5 on the left and 5 on the right -10 offensive, 5 on the left and 5 on the right	-Defensive rebounding: keep ball up by chin with elbows out to protect the ball from defenders -Offensive rebounding: do not let the ball drop down to your waist when you bring down the rebound, it makes it easier for defenders to slap the ball away
25-36 min <b>10 minutes</b>	Post moves -20 drop steps from each side of hoop *Water break*	-Focus on footwork, especially if you have never done the move before. Perfect the components of the move before going full speed. -Do 10 to the baseline and 10 to the middle on each side of the hoop.
36-40 min <b>5 minutes</b>	Speed/Explosion -6 Drop and sprint forward, left, and right	-Alternate your takeoff foot, start the sprint with the left foot on half and the right foot on half

F. J. Smith, 2016-12-02 A 12 week strength conditioning training program for Basketball focusing on power development for an advanced level. DS Performance have created an exclusive series of sport specific strength conditioning training programmes that have underpinning evidence based training methods which have been put in place to improve your performance for all ages and abilities. All programmes have been designed to develop each specific performance variable through the progression of intensity and volume. Along with your training program this book contains a supporting guide to mobility training. This guide uses myofascial release static stretching and activation work to mobilise the major body parts used in training. It has been put in place to increase your mobility; it can also be used to support your warm ups and cool downs. To aid your training we also included a series of tables to create your lifting percentages. These tables will help you work out your working percentages from 40% to 95%. The tables are broken down into 5% loads all in kilograms ranging from 10kg to 300kg. All programmes by DS Performance are 12 weeks in duration; we recommend that you do two six week training blocks with a de-loading week between the two training blocks. This will allow the body to recover, prepare you for the second training phase and reduce any risk of injury. While in Basketball no two players are exactly alike in size, shape or skill level; players must always improve their on court performance by developing key physical attributes. Because becoming a great basketball player is so much more than just refining the skills that are on display on the court, they need to develop speed, power, agility and strength for improved performance. This is why our programmes have been designed to develop the key physical attributes for Basketball. Covering the essential physical aspects to Basketball is just as important as putting the time in on the court. Choose your current training level: Amateur, Intermediate and Advanced for the variable you would like to train and progress your way up to Advanced to really improve your performance. The three levels: Amateur, Intermediate and Advanced represent more your current training age, experience and skill level. Because weight training and other training methods have a completely different set of skills required when lifting and training correctly compared to your sport, DS Performance training programmes are written to run alongside a skill sport specific based training plan. DS Performance programmes provide sessions for 3 days of training a week to alternate between your skill sport specific training sessions. DS Performance has selected five of the most important physical performance variables/attributes for each of the sports that are essential in developing your performance. DS Performance strength conditioning training programmes have been written for 20 of the most popular sports globally; the sports selected have a wide range of physical attributes and together we have targeted the

primary performance variables to develop them for increases in your personal performance DS Performance has been developed to bring elite training methods to everyone from all levels of sporting ability The mission of DS Performance is to make training programmes utilised by professional athletes available to all sporting enthusiasts and performers DS Performance are providing you with training programmes designed by ex Team GB athletes and coaching staff that have the practical and applied experience through a wide range of individual and team based sports Combined with the vast experience an International athlete has on training and peak performance who also are qualified to a minimum of Post Graduate level in the form of Masters Degrees in Sport Science Strength Conditioning Ds Performance Strength & Conditioning Training Program for Basketball, Stability, Amateur D.
