Life Span Motor Development 6th Edition Haywood, Kathleen, Getchell, Nancy, 2014-07-21 This updated edition uses the model of constraints in discussing reasons for changes in movement throughout the life span. It encourages students to examine how the interactions of the individual environment and task bring about changes in a person's movements.

Development Across the Life Span Robert S. Feldman, 2011 Robert Feldman offers students a chronological overview of physical, cognitive, social, and emotional development from conception through death with his text *Development Across the Lifespan*. The text presents up-to-date coverage of theory and research with an emphasis on the application of these concepts by students in their personal and future professional lives. The text taps into students' inherent interest in the subject of human development, encouraging them to draw connections between the material and their own experiences. This book is available with MyDevelopmentLab, which includes a full eText, videos, self-tests, flashcards, and MyVirtualChild, the interactive simulation which allows you to raise a virtual child from birth to age 18 and monitor the effects of your parenting decisions.

The Developing Person Through the Life Span Kathleen Stassen Berger, 2005 *The Developing Person Through the Life Span* Sixth Edition presents theory, research, practical examples, and policy issues in a way that inspires students to think about human development and about the individual's role in the community and the world.
