Devil May Care:

The Devil May Care David Housewright, 2014-06-03 Riley Brodin is the granddaughter of Walter Muehlenhaus a man as rich powerful and connected as anyone since the days of J P Morgan Despite her family's connections it's McKenzie she reaches out to when her relatively new boyfriend goes missing Despite his reservations about getting involved with the Muehlenhaus family again Mac McKenzie agrees to look for one Juan Carlos Navarre What he finds though is a man who appears to be a ghost The house mansion really he told Riley he owned is actually a rental barely lived in and practically devoid of personal effects The restaurant he claimed to own is owned by another and Navarre merely an investor He apparently has no friends no traceable past and McKenzie isn't the only one looking for him Whoever Juan Carlos Navarre is and wherever he's gone the one thing that is clear is that he's trouble and is perhaps someone as Riley's family makes clear better out of the picture Unfortunately for everyone McKenzie likes trouble and trouble likes him in *The Devil May Care* by David Housewright

The Devil May Care Tony Horwitz, 2003 Stripped naked and pursued across cactus studded plains by a band of armed Blackfoot Indians John Colter escaped certain death to become the one of the most durable characters in western American history But Colter's harrowing tale was not beyond the ordinary when compared to the adventures of other American explorers In *The Devil May Care* popular historian and travel writer Tony Horwitz has culled through the American National Biography and selected fifty stirring biographies of adventurers who had no one's footsteps to follow in and yet contributed enormously to our understanding of the world Horwitz introduces us to fascinating individuals such as John Ledyard the first American to see what would become the Pacific Northwest and Elisha Kent Kane America's first arctic hero who stumbled upon an extremely strange remedy for scurvy while icebound off of Ellesmere Island Having set off into the unknown many times himself as a foreign correspondent Horwitz brings a subtle sense of humor and a reporter's eye for detail to a collection that offers a glimpse inside the lives of historic Americans who brazenly challenged danger as they pursued their wanderlust to extreme climates and forbidding environments Beginning with a short essay Horwitz seeks his own definition of exploration drawing on some of his research into the voyages of Captain James Cook and considering its larger implications throughout history Archival photographs as well as a lively and personal introduction to each story by Horwitz further enhance the appeal of a volume that winds its way through several centuries of American exploration affirming that the best adventure stories are the true ones
