Kelode, Chalamalasetti Vana Venkata Madhur, 2025-03-27 Psycho-Socio-Physical Dimensions of Adolescent Health Management: Emerging Research and Opportunities Nanda, Sapna, 2018-12-14 Today's youth experience a period of major physical, physiological, psychological, and behavioral changes with changing patterns of social interactions and relationships. The changing environments in which adolescents live impact their behavior, which in turn can implicate their health and wellbeing. The changing nature of these health problems amongst adolescents calls for new responses from the medical sector to promote and protect their health. **Psycho Socio Physical Dimensions of Adolescent Health Management: Emerging Research and Opportunities** is a pivotal reference source that provides vital research on the protection of adolescent health and wellbeing by strategizing better healthcare initiatives and programs as well as assessing the impact of various healthcare approaches in modifying the health and behavior of adolescents. Covering topics that include growth patterns, improving mental health, and interpersonal relationships, this book is ideally designed for healthcare professionals, psychologists, psychiatrists, sociologists, social workers, researchers, policymakers, and scholars.

Annual Report - Council of Scientific and Industrial Research Council of Scientific & Industrial Research (India), 1990 **Annual Report** India. Department of Scientific & Industrial Research, 2001 Drivers of agrifood system transformation in Odisha Mishra, Sarba Narayan, Mishra, Subhrajyoti, Ajmani, Manmeet Singh, Ashok, K.R., Behura, Debdutt, Das, Manoj Kumar, 2025-01-17 Globally, agrifood systems (AFS) are experiencing rapid transformation driven by a range of factors. This transformation process is also observed across several states of India, including Odisha. This study develops a conceptual framework to examine the key drivers of AFS transformation in Odisha. Analytical tools including trend analysis, the Simpson Index, and the Just Pope Yield function were used to assess the impact of various determinants of changes in the state's AFS. The report presents an analysis and breakdown of growth trends in the agrifood system over the last two decades, identifies constraints and opportunities for future growth, and evaluates the coherence of government agricultural policies, offering direction for future policies to manage and motivate AFS transformation in Odisha. Odisha's AFS is characterized by diverse stakeholders, with smallholder farmers facing significant challenges, particularly from climate-induced shocks and the volatility in agricultural gross value added (GVA). Among farming households, wage income now surpasses earnings from traditional agricultural activities such as crop cultivation and livestock production. Several demographic and economic factors, including population

growth urbanization and rising incomes have profoundly influenced the structure and operations of the AFS as evidenced by increasing demand for higher value food products including processed foods The adoption of innovative technologies such as Bt cotton and climate resilient crop varieties has enhanced farm productivity and profitability driving crop diversification Increased use of purchased farm inputs such as high yielding variety seeds inorganic fertilizers pesticides and agricultural machinery has further shaped Odisha s agrifood landscape Government policies including higher annual budget allocations for irrigation infrastructure climate resilient technologies subsidized credit and insurance and farmer welfare programs have been instrumental in shaping Odisha s AFS However despite strong growth the fisheries sector remains underfunded compared to other subsectors Improved rural infrastructure such as expanded road and irrigation networks grain and cold storage facilities mobile connectivity and improved market access has contributed positively to AFS transformation in the state Additionally rural organizations including farmer producer organizations FPO self help groups SHG Krishi Vigyan Kendra KVK and agricultural extension centers have played a crucial role in advancing the state agricultural initiatives such as Shree Anna Abhiyan the special programme for promotion of millets in tribal areas of Odisha The increasing number of hotels and restaurants coupled with rising investments in the agrifood industry underscores the expanding role of the agro processing sector in Odisha s economy To revitalize rural economies efforts should focus on boosting rural non farm sectors enhancing farm productivity and strengthening infrastructure particularly logistics and cold chain facilities Investments in agrifood processing promoting digital marketing and fostering climate resilient technologies are also important Small farmers need support through strengthened FPOs better access to quality seeds and mechanization especially women farmers Policies should be modified to promote increased crop and enterprise diversification fishery sector growth and organic farming Agrifood parks and research in processing technologies can increase value addition and promote entrepreneurship within the AFS Finally solar energy integration will ensure sustainability and economic growth across agrifood value chains
