**USE/RELATIONSHIP:** The Quantity Data Report is the Department of Defense (DoD) system for collecting program quantity information as part of the Cost, Software, and Technical Data Reporting (CSDR) requirement. The resulting data repository serves as the primary source for contract cost and software data for many DoD resource analysis efforts; including cost database development, applied cost estimating, cost research, program reviews, Analysis of Alternatives (AoA), and life cycle cost estimates. The Quantity Data Report provides context to cost and hour data to derive accurate unit cost.

For background and detailed requirements related to CSDR, refer to DoD 5000.04-M-1 (or latest version), "Cost and Software Data Reporting (CSDR) Manual."

The Quantity Data Report is structured around five data groups below that contain the content and relationships required for electronic submissions:

Quantity Data Group Name	Data Group
Report Metadata	A
DD FORM 2794 Data Elements	B
Quantity At Completion	C
Assessed Quantity To Date	D
Sequencing (as required by DD FORM 2794)	E

- A. **Data Group A – Report Metadata:** Provides metadata on the contract that allows the submitted data to be associated with other program data.
- B. **Data Group B – DD FORM 2794 Data Elements:** Documents WBS reporting elements and additional data tags, or identification to separate data items, as required by the DD FORM 2794.
- C. **Data Group C – Quantity At Completion:** Documents the quantities at completion, both delivered and internal, for relevant pieces of scope by Work Breakdown Structure (WBS), consistent with the DD FORM 2794.
- D. **Data Group D – Assessed Quantity To Date:** Documents quantities completed to date and quantities in process by WBS consistent with the DD FORM 2794.
- E. **Data Group E – Sequencing (as required by DD FORM 2794):** Documents the cumulative sequencing of delivered and internal units produced for each End Item coming from the same production line.

This DID summarizes content and provides instructions to support the data and frequency requirements specified in the contract for Quantity Data reporting. The Quantity Data Report is related to other program acquisition
