Epoch ,1891 Sustainability in the Global City Cindy Isenhour,Gary McDonogh,Melissa Checker,2015-03-05 Cities play a pivotal but paradoxical role in the future of our planet As world leaders and citizens grapple with the consequences of growth pollution climate change and waste urban sustainability has become a ubiquitous catchphrase and a beacon of hope Yet we know little about how the concept is implemented in daily life particularly with regard to questions of social justice and equity This volume provides a unique and vital contribution to ongoing conversations about urban sustainability by looking beyond the promises propaganda and policies associated with the concept in order to explore both its mythic meanings and the practical implications in a variety of everyday contexts The authors present ethnographic studies from cities in eleven countries and six continents Each chapter highlights the universalized assumptions underlying interpretations of sustainability while elucidating the diverse and contradictory ways in which people understand incorporate advocate for and reject sustainability in the course of their daily lives Catalogue of Title-entries of Books and Other Articles Entered in

Contemporary Translation in Transition Maria Khotimsky,Friederike Reents,Henrieke Stahl,William Waters,2025-01-07

This book investigates the hybrid multiform nature of contemporary poetry with particular emphasis on recent Russian lyric and its translations into German and English Poetry translation thriving and obstinately open ended is not so much a defined process as a practice of ongoing transit across linguistic and national borders The book s innovative format invites contemporary poets into dialogue with literary translators editors publishers and scholars the conversations among their wide ranging essays poems and exchanges both model and investigate the work of transcultural dialogue As a kind of transition poetry translation engages the composition and disintegration of forms revises relations of producers to receivers mixes and rethinks genres and media translates itself as multilingual writing or language experiment Multiple translations of a poem do not compete but interact reshaping the putative gulf between source and target language In the end this volume underscores the aesthetic productivity of poetry translation and the need to nurture it A must read for anyone interested in the dynamic interplay of poetry language and culture

Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes.
