SETTING THE STAGE During World War II, the United States and the Soviet Union had joined forces to fight against the Germans. The Soviet army marched west; the Americans marched east. When the Allied soldiers met at the Elbe River in 1945, they embraced each other warmly because they had defeated the Nazis. Their leaders, however, regarded each other much more coolly. This animosity caused by competing political philosophies would lead to a nearly half-century of conflict called the Cold War.

Allies Become Enemies

Even before World War II ended, the U.S. alliance with the Soviet Union had begun to unravel. The United States was upset that Joseph Stalin, the Soviet leader, had signed a nonaggression pact with Germany in 1939. Later, Stalin blamed the Allies for not invading German-occupied Europe earlier than 1944. Driven by these and other disagreements, the two allies began to pursue opposing goals.

Yalta Conference: A Postwar Plan The war was not yet over in February 1945. But the leaders of the United States, Britain, and the Soviet Union met at the Soviet Black Sea resort of Yalta. There, they agreed to divide Germany into zones of occupation controlled by the Allied military forces. Germany also would have

Temptations of a Superpower Ronald Steel, 1995 America is the last remaining superpower Yet what does this triumph mean when the challenges we face often defy military solutions In *Temptations of a Superpower* one of our most eloquent and incisive foreign policy analysts takes a hard look at this question with all its implications for America's role in the post Cold War world Ronald Steel offers a devastating critique of a high stakes game of foreign policy played by rules that no longer apply and then proposes a more realistic and pragmatic view of the world and our place in it The Cold War imposed a certain order on the world giving us a secure sense of our enemies and allies our interests and our mission Steel paints a disturbing picture of the world now deprived of its ordering principle where ethnic conflicts and national rivalries once held in check erupt in violence where the shifting allegiances and fevered ambitions flout familiar strategies for keeping peace conducting trade and protecting human rights He explores the history of our present predicament and explains the dangers of adapting outmoded but habitual policies to a new world whose shape is fast evolving What for instance is the future of America's military deeply embedded as it is in our culture and economy If Wilsonian idealism with its vision of converting the world to democracy replaces anti communism as the guiding principle behind foreign policy how far should it take us What distinctions should we make between our nearest neighbors and distant nations How are we to balance economic needs and ethical imperatives Analyzing the turmoil sweeping the world from China to Bosnia Haiti to the Caucasus Steel depicts the shattering dilemmas facing American policymakers What concern should the United States have with many world quarrels How can national interest be reconciled with strategic considerations and morality When should domestic needs take precedence over foreign policy The alternatives that Steel proposes to current policies defy much of the conventional wisdom and are certain to provoke controversy He asks not only what America should do for the world but what it must do for itself Reminding us that foreign and domestic policy are inseparable Steel argues that a renewed foreign policy must address not only changes in the world order but the pressing unmet needs within America itself
