How To Childrens S Ideas:

Children's Reasoning While Building Fraction Ideas Carolyn A. Maher, Dina Yankelewitz, 2017-06-10 This book may be used for research graduate and undergraduate teacher education and teacher development It presents an integrated set of studies of a heterogeneously grouped class of twenty one nine year olds engaged in exploring fraction ideas prior to classroom instruction under conditions that supported investigation collaboration and argumentation It demonstrates with text and video narrative how young children can reason about mathematics in surprisingly sophisticated ways when provided the opportunity to do so in the proper classroom environment In this volume fourth grade students reasoning about fraction concepts is described through careful analysis and accompanying video excerpts showcasing the variety and originality of their thinking These children will serve as an inspiration for educators to encourage the development of reasoning and argumentation in their students as part of a mathematics curriculum designed to produce critical thinkers **The**

Self-system Annerieke Oosterwegel, Louis Oppenheimer, 2013-05-13 This book presents a longitudinal study dealing with developmental changes within and between self concepts and their relation to personal functioning Within the psychological literature and the developmental literature in particular the interest in the ideas people hold about themselves and their relation with personal functioning is rapidly growing This interest is reinforced by the emphasis on individuality in Western society The self system is now thought to consist of a collection of self concepts in which a distinction is made between domain specific self concepts the real and ideal and context related self concepts the academic the athletic and the social It is also considered to be subjective rather than objective This subjective self involves characteristics such as continuity and distinctiveness from others These characteristics have been the primary focus of recent research In existing literature on the development of the self system little is known about the structural characteristics that is developmental changes in the interrelationships among domain specific and context related self concepts or between and within self concepts Similarly little information is available about the relationships between individuals real and ideal self concepts their perceived concepts of others and the actual ideas others have about the same individuals This book integrates hitherto separate and different components or aspects of self knowledge into one encompassing multidimensional self system **The New Idea**

Speaker for Children Maude M. Jackson, 1901 *The Origins of Action* Louis Oppenheimer, Jaan Valsiner, 2012-12-06 The Proliferation of Action Theories and Their Applications Jaan Valsiner and Louis Oppenheimer Our contemporary psychology becomes satiated by references to action and activity Over the recent decade numerous theoretical perspectives have appeared all of which operate with the notion of action Ajzen 1985 Eckensberger Keller Lantermann 1980 each of which define it see Oppenheimer Chapter 1 of this volume Likewise the empirical literature in child psychology is filled with action theoretic notions facilitated by the ease of seeing children acting within their environments at a pace that surpasses that of even the most hyperactive adult Of course the empirical discourse in contemporary psychology is highly limited by its

empiricistic emphasis which dissociates empirical work from theoretically elaborate reasoning At times one can find in the literature an anything goes attitude as long as the umbrella theoretical notion under which the given empirical study looks consensually respectable the theoretical needs of research are satisfied and psychologists can continue to accumulate data in their pursuit of normal science The latter attitude to theory of course is but a convenient illusion For any serious hope for progress in any discipline the conceptual sphere must be explicitly developed further together with the empirical efforts This sentiment led us to organize a symposium at the conference of the Society for Research in Child Development SRCD in Baltimore Maryland in 1987 The presentations at that symposium gave us the idea of editing a book on the origins of action

Children's Self-determination in the Context of Early Childhood Education and Services Federico Farini,Angela Scollan,2019-06-26 This book investigates the position of young children s self determination within a range of social contexts such as education social care mass media health politics law and the family It brings to the fore the voices of the children in the present with their interests agendas and rights Based on original primary research the chapters tackle hegemonic discourses on children s self determination as well as current policies and practices They address a broad range of topics from the planning of role play to national policies from the use of digital technologies for pedagogy to children s health and well being and from democratic practices in the classroom to the preservation of traditional family values The book presents case studies to unravel how childhood and young children s self determination are constructed at the intersection with intergenerational relationships Coming from different disciplines and using a diverse range of methodological traditions the contributions in the volume eventually converge to generate a rich complex and multi layered analysis of contemporary cultures of childhood and young children s rights
