Ca Proposition Guide:

The Internet Guide for California Lawyers, 2001 Reforming Legislatures Peverill Squire, 2024-06-26 Winner of the 2025 Virginia Gray Book Award APSA Section 22 State Politics and Policy Legislatures are ubiquitous in the American political experience First created in Virginia in 1619 they have existed continuously ever since Indeed they were established in even the most unlikely of places notably in sparsely populated frontier settlements and functioned as the focal point of every governing system devised Despite the ubiquity of state legislatures we know remarkably little about how Americans have viewed them as organizations in terms of their structures rules and procedures But with the rise of modern public opinion surveys in the twentieth century we now have extensive data on how Americans have gauged legislative performance throughout the many years That said the responses to the questions pollsters typically pose reflect partisanship policy and personality Generally respondents respond favorably to legislatures controlled by their own political party and those in power during good economic times Incumbent lawmakers get ratings boosts from having personalities home styles that mesh with those of their constituents These relationships are important indicators of people s thoughts regarding the current performance of their legislatures and legislators but they tell us nothing about attitudes toward the institution and its organizational characteristics This study offers a unique perspective on what American voters have historically thought about legislatures as organizations and legislators as representatives Rather than focusing on responses to surveys that ask respondents how they rate the current performance of lawmakers and legislatures this study leverages the most significant difference between national and state politics the existence of ballot propositions in the latter At the national level Americans have never had any say over Congress s structure rules or procedures In contrast at the state level they have had ample opportunities over the course of more than two centuries to shape their state legislatures The data examined here look at how people have voted on more than 1 500 state ballot propositions targeting a wide array of legislative organizational and parliamentary features By linking the votes on these measures with the public debates preceding them this study documents not only how Americans viewed various aspects of their legislatures but also whether their opinions held constant or shifted over time The findings reported paint a more nuanced picture of Americans attitudes toward legislatures than the prevailing one derived from survey research When presented with legislative reform measures on which concrete choices were offered and decisions on them had to be made the analyses presented here reveal that counter to the conventional wisdom that people loved their representatives but hated the legislature voters usually took charitable positions toward the institution while harboring skeptical attitudes about lawmakers motives and behaviors **A Planner's Guide to Financing Public Improvements** Antero Rivasplata, 1997 *Guide to California Foundations*, 1999 A New Leaf Alyson Martin, Nushin Rashidian, 2015-02-03 Two award winning journalists offer a cogent well sourced and ambitious analysis of the slow decline of cannabis prohibition in the United States Kirkus Reviews In November 2012 voters in Colorado and Washington passed

landmark measures to legalize the production and sale of cannabis for social use a first in the United States and the world Once vilified as a gateway drug cannabis is now legal for medical use in eighteen states and Washington DC Yet the federal government refuses to acknowledge these broader societal shifts 49 5 percent of all drug related arrests involve the sale manufacture or possession of cannabis In the first book to explore the new landscape of cannabis in the United States investigative journalists Alyson Martin and Nushin Rashidian demonstrate how recent cultural and legal developments tie into cannabis s complex history and thorny politics Reporting from nearly every state with a medical cannabis law Martin and Rashidian interview patients growers doctors entrepreneurs politicians activists and regulators A New Leaf moves from the federal cannabis farm at the University of Mississippi to the headquarters of the ACLU to Oregon s World Famous Cannabis Caf The result is a lucid account of how cannabis legalization is changing the lives of millions of Americans and easing the burden of the war on drugs both domestically and internationally
