Coffeeshop Guide Amsterdam 2015 16:

Grey Area Scott Jacques, 2019-05-01 Coffeeshops are the most famous example of Dutch tolerance But in fact these cannabis distributors are highly regulated Coffeeshops are permitted to break the law but not the rules On the premises there cannot be minors hard drugs or more than 500 grams Nor can a coffeeshop advertise cause nuisance or sell over five grams to a person in a day These rules are enforced by surprise police checks with violation punishable by closure In Grey Area Scott Jacques examines the regulations with a huge stash of data which he collected during two years of fieldwork in Amsterdam How do coffeeshop owners and staff obey the rules How are the rules broken Why so To what effect The stories and statistics show that order in the midst of smoke is key to Dutch drug policy vaporising the idea that prohibition is better than regulation Grey Area is a timely contribution in light of the blazing reform to cannabis policy worldwide Praise for Grey Area This book is original and highly topical Logical and well structured the discussion is firmly located in a large body of contemporary theory The writing style is conversational open and accessible The quality amount and depth of the empirical work that Jacques has undertaken made me feel that I was there visiting the coffeeshops with him Rarely have I seen something as careful and detailed as this work Ronald V Clarke Rutgers University USA This book examines the intricacies of operating between law and rules in Amsterdam coffeeshops Based on an extensive fieldwork it is arguably the most comprehensive criminological analysis of the issue to date This is an important work from an excellent writer that I warmly recommend to both students and researchers Kim Mller Malm University Sweden

Impact Assessment in Tourism

Economics Álvaro Matias, Peter Nijkamp, João Romão, 2016-04-30 This book presents a series of studies on the socio economic impacts of tourism with a special focus on the determinants of tourism competitiveness at the destination level The authors offer a systematic overview of this important issue presenting relevant empirical studies from different parts of the world based on modern theoretical approaches and adequate analysis tools in the context of their policy or managerial implications The first part of the book discusses the analysis and assessment of quantitative tourism impacts on local economies while the second part focuses on non material aspects of tourism development in particular those related to the role of innovation and human resources The final section highlights the different dynamics often observed in tourism destinations arising from the interaction between tourists and local communities

Food Industry Wastes Maria R. Kosseva, Colin Webb, 2020-08-02 Food Industry Wastes Assessment and Recuperation of Commodities Second Edition presents a multidisciplinary view of the latest scientific and economic approaches to food waste management novel technologies and treatment their evaluation and assessment It evaluates and synthesizes knowledge in the areas of food waste management processing technologies environmental assessment and wastewater cleaning Containing numerous case studies this book presents food waste valorization via emerging chemical physical and biological methods developed for treatment and product recovery This new edition addresses not only recycling trends but also innovative strategies for food

waste prevention The economic assessments of food waste prevention efforts in different countries are also explored This book illustrates the emerging environmental technologies that are suitable for the development of both sustainability of the food systems and a sustainable economy So this volume is a valuable resource for students and professionals including food scientists bio process engineers waste managers environmental scientists policymakers and food chain supervisors Provides guidance on current regulations for food process waste and disposal practices Highlights novel developments needed in policy making for the reduction of food waste Raises awareness of the sustainable food waste management techniques and their appraisal through Life Cycle Assessment Explores options for reducing food loss and waste along the entire food supply chain
