Smith,2005-06-09 Underachievement in school is one of the most widely used terms in education today As a discourse it has been responsible for influencing government policy staffroom discussions as well as the pages of academic journals and the TES It is also a subject which raises questions about what we expect from a fair and equitable education system This book provides a critical analysis of two sides of the underachievement debate at each of the three levels of focus international the UK and the individual On the one hand it will consider the crisis account of falling standards and failing pupils and on the other present an alternative account which urges a re evaluation of the underachievement debate in order to consider who might be underachieving and why **Rationing Education** Gillborn, David,Youdell, Deborah,1999-12-01 This research

should make us extremely sceptical that the constant search for higher standards and for ever increasing achievement scores can do much more than put in place seemingly neutral devices for restratification Michael W Apple John Bascom Professor of Curriculum and Instruction and Educational Policy Studies University of Wisconsin Madison Recent educational reforms have raised standards of achievement but have also resulted in growing inequalities based on race and social class School by school league tables play a central role in the reforms These have created an A to C economy where schools and teachers are judged on the proportion of students attaining five or more grades at levels A to C To satisfy these demands schools are

embracing new and ever more selective attempts to identify ability Their assumptions and practices embody a new IQism a simple narrow and regressive ideology of intelligence that labels working class and minority students as likely failures and justifies rationing provision to support those often white middle class boys already marked for success This book reports detailed research in two secondary schools showing the real costs of reform in terms of the pressures on teachers and the rationing of educational opportunity It will be important reading for any teacher researcher or policymaker with an interest in equality in education

Science Education for Gifted Learners Keith S. Taber, 2007-04-13 Asks how science teachers can make their classes more stimulating and challenging for the most able students to encourage them to continue their science education beyond compulsory schooling
