History Comes Home Steven Zemelman, 1999 Teachers recognize that to succeed in school children need to make connections between their own lives and the subjects they study By creating a supportive classroom community and employing in depth inquiry on a topic of real significance to students you can help them see how school subjects provide essential tools and knowledge for their lives The explorations of family histories developed in *History Comes Home* provides a powerful vehicle for achieving these goals in classrooms of all kinds In this lively step by step text you will find everything you need to carry out family history projects that will engage even your most reluctant students Strategies for organizing in depth exploration of their own heritage and activities for articulating and sharing their new knowledge are clearly explained in units that include student on student pair interviews interviewing family members profiling and graphing classroom data researching and assembling kinship charts creating family and formal history time lines making family history videos You will learn how to promote strong writing about family history use other expressive forms such as sketch to stretch to link family history with literature and math find Internet resources and government archives for tracing family origins and meaningfully assess student work Wide choices and options are described so that all students whatever their family make up can feel included Strategies for relating family history projects to district standards and requirements allow teachers to ensure that necessary curriculum is covered even as the strategies support students own lines of inquiry *History Comes Home* will help you expand the widely used family tree assignment into a rich and powerful part of your teaching that will strengthen your students skills in writing research and thinking and help your classroom come alive with learning across the curriculum

A Girl's Guide to Missiles Karen Piper, 2019-08-13 A poignant surreal and fearlessly honest look at growing up on one of the most secretive weapons installations on earth by a young woman who came of age with missiles The China Lake missile range is located in a huge stretch of the Mojave Desert about the size of the state of Delaware It was created during the Second World War and has always been shrouded in secrecy But people who make missiles and other weapons are regular working people with domestic routines and everyday dilemmas and four of them were Karen Piper's parents her sister and when she needed summer jobs herself Her dad designed the Sidewinder which was ultimately used catastrophically in Vietnam When her mom got tired of being a stay at home mom she went to work on the Tomahawk Once when a missile nose needed to be taken offsite for final testing her mother loaded it into the trunk of the family car and set off down a Los Angeles freeway Traffic was heavy and so she stopped off at the mall leaving the missile in the parking lot Piper sketches in the belief systems from Amway's get rich schemes to propaganda in *The Rocketeer* to evangelism along with fears of a Lemurian takeover and Charles Manson that governed their lives Her memoir is also a search for the truth of the past and what really brought her parents to China Lake with two young daughters a story that reaches back to her father's World War II flights with contraband across Europe Finally *A Girl's Guide to Missiles* recounts the crossroads moment in a

young woman's life when she finally found a way out of a culture of secrets and fear and out of the desert *Sexuality, Intimacy, Power* Muriel Dimen, 2023-11-28 This book offers Dimen's classic take on psychosexuality drawing on relational theory feminism and postmodernism with a new foreword by Virginia Goldner and Velleda Ceccoli honouring the late Muriel Dimen and introducing a new audience to her profound legacy For Dimen the shift from dualism to multiplicity that has reshaped a range of disciplines can also be brought to bear on our thinking about sexuality She urges us to return to the open mindedness hiding between the lines and buried in the footnotes of Freud's writings and to replace the determinism into which his thought has hardened with more fluid notions of contingency paradox and thirdness By unveiling the colloquy among psychoanalysis social theory and feminism Dimen challenges clinicians and academicians alike to rethink ideas about gender eroticism and perversion She explores among other topics the relations between lust and libido the limitations of Darwinian thought in theorizing homosexuality the body as projective test and the intimate tangle of love and hate between women Generous clinical examples illustrate the ways in which a radical re-visioning of psychosexuality benefits therapists and patients alike A brilliant example of contemporary psychoanalytic theory at its destabilizing best *Sexuality Intimacy Power* covers both clinical insights and theoretical rethinking that is invaluable for psychoanalysts psychotherapists and students of women's gender and queer studies **A People and a Nation Study Guide, Volume 2, Fifth Edition**
