Cold War Conflicts Chapter 2answer:

War and Conflict in Africa Paul D. Williams, 2013-04-26 After the Cold War Africa earned the dubious distinction of being the world's most bloody continent. But how can we explain this proliferation of armed conflicts? What caused them and what were their main characteristics? And what did the world's governments do to stop them? In this fully revised and updated second edition of his popular text, Paul Williams offers an in-depth and wide-ranging assessment of more than six hundred armed conflicts which took place in Africa from 1990 to the present day, from the continental catastrophe in the Great Lakes region to the sprawling conflicts across the Sahel and the web of wars in the Horn of Africa. Taking a broad comparative approach to examine the political contexts in which these wars occurred, he explores the major patterns of organized violence, the key ingredients that provoked them, and the major international responses undertaken to deliver lasting peace. Part I: Contexts provides an overview of the most important attempts to measure the number, scale, and location of Africa's armed conflicts and provides a conceptual and political sketch of the terrain of struggle upon which these wars were waged. Part II: Ingredients analyses the role of five widely debated features of Africa's wars: the dynamics of neopatrimonial systems of governance, the construction and manipulation of ethnic identities, questions of sovereignty and self-determination, as well as the impact of natural resources and religion. Part III: Responses discusses four major international reactions to Africa's wars: attempts to build a new institutional architecture to help promote peace and security on the continent; this architecture's two main policy instruments, peacemaking initiatives and peace operations; and efforts to develop the continent. *War and Conflict in Africa* will be essential reading for all students of international peace and security studies, as well as Africa's international relations.

Brendan M. Howe, 2016-04-08 East Asia is a region deeply affected by conflict. Colonial ideological and national wars have left their scars and legacies on regional international and national governance. Yet East Asian post conflict development experiences have been viewed as remarkably successful. The three largest economies of East Asia, Japan, China, and South Korea, have all experienced dramatic growth but immediately prior to their periods of expansion all experienced the devastating impacts of international conflicts and or civil upheaval. These post conflict development success stories do not however tell the whole tale. Other states in East Asia and in particular certain regions within some of these states while apparently emerging from similar conflictual backgrounds have experienced far less positive transitions. This volume critically assesses measurements of success in East Asian post conflict development from a human centered perspective. This involves a major re evaluation of accepted accounts of domestic governance and international relations in East Asia from both a comparative and interdisciplinary viewpoint. Case study rich, this volume provides policy prescriptions for East Asian donors and actors in an effort to provide Asian solutions for Asian problems. Coping with Conflict After the Cold War Edward A. Kolodziej, Roger E. Kanet, 1996 This volume provides answers to the question of how the international community might cope with armed conflict after the Cold War. It identifies key actors, states, and international organizations that have the resources and potentially the will to address the problems of continuing violence and enduring conflicts. The book also evaluates the roles and strategies that might be adopted by these actors unilaterally or cooperatively to ease or end such armed struggles. The authors review the role of the United States, Russia, Japan, and China, all of which have the potential to play constructive roles in resolving conflicts. They also explore the contributions that the United Nations, the European Community, and other transnational organizations can make to building a more peaceful and secure world. Instead of appealing to grand theory as a guide for coping, the authors conclude different mixes of actors, resources, roles, and strategies will have to be fashioned to meet the special needs of each conflict. Coping is viewed as an international imperative and not as the responsibility or prerogative of any one actor. The volume will be of interest to anyone concerned with international relations, international organizations, and security issues. Contributors are Arthur J. Alexander, Mohammed Ayoob, Nicole Ball, Paul F. Diehl, Roger E. Kanet, Samuel S. Kim, Edward A. Kolodziej, Edward J. Laurence, David F. Linowes, Patrick M. Morgan, Jack Snyder, Janice Gross Stein, and I. William Zartman. **Cinematic Cold War** Tony Shaw, Denise Jeanne Youngblood, 2010 The first book length survey of cinema's vital role in the Cold War cultural combat between the U.S. and the USSR. Focuses on 10 films, five American and five Soviet, both iconic and lesser known works showing that cinema provided a crucial outlet for the global debate between democratic and communist ideologies. **The NGO Game** Patrice C. McMahon, 2017-06-13 In most post conflict countries, nongovernmental organizations are everywhere but their presence is misunderstood. In *The NGO Game*, Patrice McMahon investigates the unintended outcomes of what she calls the NGO boom in Bosnia and Kosovo. Using her years of fieldwork and interviews, McMahon argues that when international actors try to rebuild and reconstruct post

conflict countries they often rely on and look to NGOs Although policymakers and scholars tend to accept and even celebrate NGO involvement in post conflict and transitioning countries they rarely examine why NGOs have become so popular what NGOs do or how they affect everyday life After a conflict international NGOs descend on a country local NGOs pop up everywhere and money and energy flow into strengthening the organizations In time the frenzy of activity slows the internationals go home local groups disappear from sight and the NGO boom goes bust Instead of peace and stability the embrace of NGOs and the enthusiasm for international peacebuilding turns to disappointment if not cynicism For many in the Balkans and other post conflict environments NGOs are not an aid to building a lasting peace but are part of the problem because of the turmoil they foster during their life cycles in a given country The NGO Game will be useful to practitioners and policymakers interested in improving peacebuilding the role of NGOs in peace and development and the sustainability of local initiatives in post conflict countries
