Malice Aforethought Ian Jones,2016-08-31 An examination of the uses of explosive traps in a military context and the measures that have been taken to negate their effects and to neutralize them War has always provided a stimulus to technological development and throughout the twentieth century this new technology was harnessed to produce increasingly deadly and malicious types of explosives in the form of booby traps mines delayed action devices and mobile charges Designed constructed or adopted to kill or injure these lethal mechanisms function when a person disturbs or approaches a seemingly harmless object or performs an apparently safe act In other instances they are set off by remote control or automatically after a lapse of time Fully illustrated with diagrams and photographs *Malice Aforethought* traces the design deployment and effectiveness of these deadly devices throughout both world wars to the Vietnam War Expertly and compellingly written this unique study is a tribute to the brave men who risked their lives daily to neutralize the booby traps laid in the dimly lit dugouts of the Western Front on the beaches of Normandy or in the dark and dangerous tunnels of Chu Chi Between Constantinople and Rome Kathleen Maxwell,2016-12-05 This is a study of the artistic and political context that led to the production of a truly exceptional Byzantine illustrated manuscript Paris Biblioth que Nationale de France codex grec 54 is one of the most ambitious and complex manuscripts produced during the Byzantine era This thirteenth century Greek and Latin Gospel book features full page evangelist portraits an extensive narrative cycle and unique

polychromatic texts However it has never been the subject of a comprehensive study and the circumstances of its commission are unknown In this book Kathleen Maxwell addresses the following questions what circumstances led to the creation of Paris 54 Who commissioned it and for what purpose How was a deluxe manuscript such as this produced Why was it left unfinished How does it relate to other Byzantine illustrated Gospel books Paris 54 s innovations are a testament to the extraordinary circumstances of its commission Maxwell s multi disciplinary approach includes codicological and paleographical evidence together with New Testament textual criticism artistic and historical analysis She concludes that Paris 54 was never intended to copy any other manuscript Rather it was designed to eclipse its contemporaries and to physically embody a new relationship between Constantinople and the Latin West as envisioned by its patron Analysis of Paris 54 s texts and miniature cycle indicates that it was created at the behest of a Byzantine emperor as a gift to a pope in conjunction with imperial efforts to unify the Latin and Orthodox churches As such Paris 54 is a unique witness to early Palaeologan attempts to achieve church union with Rome
