

HP's "One Voice" Package Branding

HP recently introduced the new One Voice branding guidelines. The new brand identity enables HP to easily create clear, persuasive packaging that helps our customers immediately identify HP products and powerfully connect with the HP brand. The new changes affect trade packaging, inserts and booklets and cartridge labels.

What, When, Why?

The new brand identity enables HP to easily create clear, persuasive packaging that helps our customers immediately identify HP products. Our customers can now powerfully connect with the HP brand.

Inkjet supplies packaging

What's stayed the same?

- Same price, no price change
- Same product numbers
- Same UPC codes
- Same weight and dimensions
- Compatibility chart still on side panel

What's changed?

- New branding image (cleaner, more upbeat)
- Selectability number even larger
- New, larger color symbol
- Image of cartridge(s) on back
- No technology coloring
- Same look across supplies packaging

LaserJet packaging

HP LaserJet monochrome cartridges: What's changed?

- New light blue package color
- Bigger and bolder type size for selection number
- "X" cartridge description: "High volume printing" replaces "maximum capacity"

HP Color LaserJet cartridges: What's changed?

- New light blue package color
- Bigger, more prominent product number
- New visual cue to identify CMYK

Media packaging

We've made similar changes to the packaging design for HP paper to improve selectability at retail. We've increased the logo size for a more prominent HP brand presence. We've enlarged the media name for easy selectability and made violators bolder and more conspicuous. Enlarged type provides an easier, cleaner read of key features and specs.

An easy-to-read chart helps consumers compare different types of HP photo paper to traditionally processed film. We use supporting imagery to help consumers better understand key product benefits and features, link people to products and give HP a bolder, differentiated look that isn't used by our competitors. Why-to-buy information is given ample space on the back panel (consumer research showed a desire to read it on the back rather than the side).
