of writing is that you should write about what you know. If you have a specific genre that you read, chances are that this is what you will want to write about. Take a look at your interests and the type of books that you read before you decide on your genre. Your book should never be just about making money; it should be about something for which you have a passion. There are many different genres available in both fiction and non-fiction. Before you start your book, have a plan of what it will be about and the genre it will fill. You need to have a specific genre when you are writing a book so that you will be able to market it properly. Some books will cross genre lines such as paranormal and romance. Some books will fit neatly into a specific genre. It should be clear what the book is about to the reader so that they will be interested in what you have written enough to buy the book. Most readers have types of books that they like to read and tend to stick to one or two genres. If you are writing a non-fiction book, there are also genres. You need to make your book stand out among the rest in a way that will set it apart from other books of the same genre.
