Qu justicia queremos Esta pregunta a lo largo de la historia de la humanidad en diferentes lugares y momentos tuvo distintas respuestas las que en el correr de esta obra van apareciendo expresamente o de modo implícito sea con valoración positiva o negativa. Así el autor logra que revisemos mentalmente los distintos paradigmas de justicia adentrándonos en el sentido e importancia de la restauración como una de esas respuestas superadora en el plano respecto de las soluciones retributivas más humana, compasiva y benévola. El libro es un gran aporte a la comprensión cabal de la definición, contenido y objeto de la Justicia Restaurativa resultando especialmente valioso el constante esfuerzo por aclarar conceptos que habitualmente se confunden como por ejemplo restaurar y reparar. Si bien no llama la atención que un profesor escriba de modo claro procurando poner luz sobre terminología que sabe suele ser ambigua o mal interpretada o inclusive tomada por su contrario, debo resaltar que la tarea del Dr. Conforti a la hora de redactar estas páginas ha sido magnífica y esclarecedora. Por otro lado, desde mi rol de legisladora y considerando el proceso de transferencia de competencias jurisdiccionales en materia penal de la justicia nacional a la de la Ciudad de Buenos Aires, entiendo que libros como este colaboran a que quienes debemos dar la discusión no sólo funcionarios de los tres poderes del Estado y los académicos sino también los ciudadanos tengamos material preciado tanto de lectura y consulta como de fuente de reflexión e inspiración para el debate que como sociedad deberíamos darnos. Felicito y agradezco al autor así como a la editorial por la iniciativa de publicar esta obra que además de poner el tema en escena plantea un enfoque de la restauración que es transformador: no es la víctima la protagonista principal de la práctica restaurativa sino la sociedad, la comunidad en la que tanto el que ofensor y ofendido están insertos. En el desarrollo de esta visión Conforti expresa una gran cantidad de consideraciones incluyendo creencias populares llamados de atención y referencias a pensadores de distintas disciplinas que invitan al lector a asentir que no sólo es posible sino también deseable que evolucionemos socialmente hacia la adopción de prácticas restaurativas acercándonos a nosotros mismos al concepto integral de Justicia.

Lexicography is a realm of growing academic specialization Dictionaries map meaning onto use We have innumerable dictionaries on different subjects and for different purposes which we keep referring to time and again Despite the frequency with which dictionaries are unquestioningly consulted many have little idea of what actually goes into making them or how meanings are definitively ascertained We have become so accustomed to using dictionaries that we fail to take notice of the effort and time spent in their making Understanding the finer nuances of the art of dictionary making will be of interest to everyone With changing times and the penetration of technology the bulkier forms of dictionaries have given way to softer forms This book updates the reader to the changing notions of the lexicon and dictionary making in the new realm of modern technology and newer electronic tools The book introduces us to lexicography and leads us to dictionaries for general and specific purposes It examines dictionary compilation and research and enables compilers users educators and publishers to look anew at the art of lexicography It duly takes into account the fact that dictionaries are meant to fulfill the needs of specific user groups and reflects the same in the chapters devoted to various professional dictionaries which have recently achieved widespread recognition in the lexicographical literature A good read for students of linguistics teachers and translators apart from general readers interested in knowing the intricate art of making a dictionary **Libros argentinos**,1987 G.K.
