Dictionnaire des sciences humaines François Gresle, 1990 Methodologies of Legal Research Mark Van Hoecke, 2011-02-28 Until quite recently questions about methodology in legal research have been largely confined to understanding the role of doctrinal research as a scholarly discipline In turn this has involved asking questions not only about coverage but fundamentally questions about the identity of the discipline Is it mainly descriptive hermeneutical or normative Should it also be explanatory Legal scholarship has been torn between on the one hand grasping the expanding reality of law and its context and on the other reducing this complex whole to manageable proportions The purely internal analysis of a legal system isolated from any societal context remains an option and is still seen in the approach of the French academy but as law aims at ordering society and influencing human

behaviour this approach is felt by many scholars to be insufficient Consequently many attempts have been made to conceive legal research differently Social scientific and comparative approaches have proven fruitful However does the introduction of other approaches leave merely a residue of legal doctrine to which pockets of social sciences can be added or should legal doctrine be merged with the social sciences What would such a broad interdisciplinary field look like and what would its methods be This book is an attempt to answer some of these questions *Rivista J-Reading n. 1-2018* Gino De Vecchis, 2018-06-28 IN QUESTO NUMERO Sirpa Tani Hannele Cantell Markus Hilander Powerful disciplinary knowledge and the status of geography in Finnish upper secondary schools Teachers views on recent changes Cristiano Pesaresi Davide Pavia Multiphase procedure for landscape reconstruction and their evolution analysis GIS modelling for areas exposed to high volcanic risk Guy Mercier Esquisse d'une thèse humaniste du lieu Giorgia Iovino Urban regeneration strategies in waterfront areas An interpretative framework Donatella Privitera Sandro Privitera Laboratory as experiment in field learning An application in a touristic city THE LANGUAGE OF IMAGES Edited by Elisa Bignante and Marco Maggioli Cristiano Giorda Giacomo Pettenati Visual geographies and mountain psychogeographic drift The geography workshops of the Childhood and Primary Teachers Education course of the University of Turin MAPPING SOCIETIES Edited by Edoardo Boria Laura Lo Presti Maps In Out Of Place Charting alternative ways of looking and experimenting with cartography and GIS GEOGRAPHICAL NOTES AND PRACTICAL CONSIDERATIONS Bruno Ratti Geographic Knowledge Paradigm of Society 50 TEACHINGS FROM THE PAST Edited by Dino Gavinelli and Davide Papotti M Aurousseau The Geographical Study of Population Groups with comments by Maristella Bergaglio Re reading The Geographical Study of Population Groups by M Aurousseau
