In Search of the Liberal Moment S. Sawyer, 2016-04-08 This book explores a series of challenging new perspectives on the origins development and legacy of France s liberal moment during the second half of the twentieth century It surveys a significant shift in interest regarding socio political philosophy and culture with the 1970s emergence of a blossoming French curiosity about liberalism and liberal thought While liberalism had played an important role in French political debate prior to this period liberal voices
