Bleeding Edge Thomas Pynchon, 2016-03-26 Bleeding Edge Evie Mitchell, 2021-05-10 *The Bleeding Edge* William W. Johnstone, J.A. Johnstone, 2011-10-24 The USA Today bestselling authors of Home Invasion return with another timely thriller that puts readers on the frontlines of the battle for America The Shady Hill Mobile Home Park isn t shady or hilly this is West Texas after all To military vet John Howard Stark it s home And worth fighting for When a vicious drug cartel starts terrorizing the residents of Shady Hill the Feds and the local police run for cover But the good people of Shady Hill make a stand electing Stark as their chief of police Once a rancher always a Texan Stark and his fellow patriots send the cartel into a bloodthirsty fury by daring to fight back When the bad guys start slaughtering innocent high school students the God fearing folks of Shady Hill find themselves deep in the heart of a bloody battle It s a desperate fight for survival that can only end in liberty or death Radical Hope in the Novels of Thomas Pynchon Phillip Grayson, 2022-09-09 Radical Hope in the Novels of Thomas Pynchon The Moon and Meteor provides a careful consideration of the author s career examining the ways in which the subversion of his early novels feeds into the radical

optimism of his later works The book's first half explores the author's use of the image of the Moon as a romanticized ideal that is irreparably corrupted by and corruptly manipulated by forces of worldly power The second half takes up the meteor as an image of impending violence that has yet to be fully realized finding in the unlikely possibility of that violence being somehow averted a reckless sort of hope This foolhardy but nonetheless real hope to escape from violent oppressive structures and forge a real ethical obligation to the other marks the development of these paired metaphors and through them Pynchon introduces the possibility however slight that literature with its powerfully intimate relationship with consciousness may at least sustain that hope

The Bleeding Edge William F. Nolan, Jason V. Brock, 2015-04-01 This acclaimed volume features one of the most distinguished lineups of any original anthology published in recent years ranging from legends such as Ray Bradbury Richard Matheson George Clayton Johnson Earl Hamner Jr and Dan O'Bannon to such leading contemporary figures as Nancy Kilpatrick John Shirley Joe R Lansdale and Steve Rasnic Tem While basically hewing to the genre of weird fiction The Bleeding Edge runs the gamut of subject matter from the ghost story to Lovecraftian horror to fantasy There is something for everyone in this wondrously diverse book the only point of consistency is the exemplary quality of the material Nolan and Brock have put together a compelling anthology of dark short fiction that includes unused Twilight Zone scripts and unpublished work by the likes of Ray Bradbury and Richard Matheson There is something for everyone in the 20 stories and scripts Publishers Weekly This volume is a snapshot of the extraordinarily rich and varied modes of writing that have dominated weird fiction over the past fifty to seventy five years In these days when theme anthologies all too often produce monotonous sameness in motif and treatment it is refreshing to come upon a volume as multifaceted as this one from S T Joshi's Foreword

Mathematics in Postmodern American Fiction Stuart J. Taylor, 2024-04-23 This book delivers an innovative critical approach to better understand U S fiction of the information age and argues that in the last eighty years fiction has become increasingly concerned with its representations of mathematical ideas images and practices In so doing this book provides a fuller transnational account of the place of mathematics in understanding mathematically informed novels Literature and science studies have acknowledged and situated historical points of cultural crossover by emphasising mathematics within this larger intellectual context and not as an unlikely and alien adjunct to post war culture this monograph clarifies how mathematically informed postmodern fictions work in a cognate fashion to other fields undergoing structuralist revolutions This is especially evident in fiction by the key mathematically literate Postmodern authors upon whom this study focuses namely Thomas Pynchon Don DeLillo and David Foster Wallace through which recent technological revolutions facilitated by mathematics manifest in cultural discourse

Flat-World Fiction Liliana M. Naydan, 2021-12-15 Flat World Fiction analyzes representations of digital technology and the social and ethical concerns it creates in mainstream literary American fiction and fiction written about the United States in the first two decades of the twenty first century In this period authors such as Don DeLillo Jennifer Egan Dave Eggers

Joshua Ferris Jonathan Safran Foer Mohsin Hamid Thomas Pynchon Kristen Roupenian Gary Shteyngart and Zadie Smith found themselves not only implicated in the developing digital world of flat screens but also threatened by it while simultaneously attempting to critique it As a result their texts explore how human relationships with digital devices and media transform human identity and human relationships with one another history divinity capitalism and nationality Liliana M Naydan walks us through these complex relationships revealing how authors show through their fiction that technology is political In the process these authors complement and expand on work by historians philosophers and social scientists creating accessible literary road maps to our digital future

Topologies of Fear in Contemporary Fiction

Trump Fiction

Stephen Hock,2019-11-15 Trump Fiction Essays on Donald Trump in Literature Film and Television examines depictions of Donald Trump and his fictional avatars in literature film and television including works that took up the subject of Trump before his successful presidential campaign in terms that often uncannily prefigure his presidency as well as those that have appeared since he took office Covering a range of texts and approaches the essays in this collection analyze the place Trump has assumed in literary and popular culture By investigating how authors including Bret Easton Ellis Amy Waldman Thomas Pynchon Howard Jacobson Mark Doten Olivia Laing and Salman Rushdie along with films and television programs like The Fresh Prince of Bel Air Sesame Street Sex and the City Two Weeks Notice Our Cartoon President and Pose have approached and shaped the discourse surrounding Trump the contributors collectively demonstrate the ways these cultural artifacts serve as sites through which the culture both resists and abets Trump and his rise to power

Reflecting 9/11

Heather Pope,Victoria Bryan,2016-06-22 In over fifteen years the cultural and artistic response to 9 11 has been wide ranging in form and function As the turbulent post 9 11 years have unfolded years that have been shaped and characterized by the War on Terror the Patriot Act the Wars in Afghanistan and Iraq 7 7 Abu Ghraib and Guant namo Bay these texts have been commemorative and heroic have attempted to work through collective and individual traumas and have struggled with trying to represent the terrorist other Many of these earlier domestic heroic and traumatic works have so often been read as limitations in narrative This collection however challenges the language of limitation and provides re readings of earlier work but also traces the emergence of a new paradigm for discussing the artistic responses to 9 11 one that frames these narratives as dialogic self conscious and self reflexive interventions in the responses to the attacks the initial representations of the attacks and the ever shifting social and geopolitical continuities of the 9 11 decade These texts widen the conversation about the lasting impacts of 9 11 and incorporate strands of discussion on American exceptionalism and imperialism torture and otherness whilst still remaining invested in the personal and collective traumas of the attacks The authors included here ask crucial questions about the way

9 11 is being historicized will it for example be read as a moment of rupture or epoch Will it inevitably be attached to the War on Terror or the Wars in Iraq and Afghanistan As they trace the emergent patterns of reflexivity politicization and dissent the contributions here are also implicitly invested in asking how far they extend *The Bleeding Edge* ,2009-12-31 DELUXE SIGNED LIMITED EDITION ILLUSTRATED *The Iowa Review* ,2013 [The Influence of the 9/11 novel on Muslim Writing](#) Matthias Dickert,2017-10-11 Scientific Essay from the year 2017 in the subject Didactics for the subject English Literature Works Johannes Gutenberg University Mainz language English abstract Since 9 11 many Muslims struggle with their identity and are exposed to xenophobia violence vicious defamation harassment or displacement In short the notion Muslim in relation to that day has become a stigma It is against this background and the post traumatic aftermath of September 11 2001 where many novelists disposing of a Muslim background wrote their novels The logical consequence from this was that Muslim writing as such has become more complex stressing the standpoints of hearer and teller as elements of distortion Interesting though is the fact that some novels dealing with Islam and Muslim characters have taken up and used the Oriental stereotypes where Muslims are according to Said seen as either oil suppliers or potential terrorists For a long time Muslim characters in literature have been connected to this negative image which Said also labels as other and Spivak as subaltern The hybrid in which many Muslim characters are often set is also still equated with the exotic thus ignoring the energy of Bhabha s term and its positive realizations in fiction It is therefore one aim of this essay to throw light on this matter and to shortly reflect the present influence of 9 11 on Muslim writing **The Animation Book** Kit Laybourne,1998 A guide to the theory aesthetics and techniques of animation features detailed instructions projects and discussions on such topics as basic movement and digital ink and paint **Against the Day** Thomas Pynchon,2012-06-13 Pynchon s funniest and arguably his most accessible novel The New York Times Book Review Raunchy funny digressive brilliant USA Today Rich and sweeping wild and thrilling The Boston Globe Spanning the era between the Chicago World s Fair of 1893 and the years just after World War I and constantly moving between locations across the globe and to a few places not strictly speaking on the map at all Against the Day unfolds with a phantasmagoria of characters that includes anarchists balloonists drug enthusiasts mathematicians mad scientists shamans spies and hired guns As an era of uncertainty comes crashing down around their ears and an unpredictable future commences these folks are mostly just trying to pursue their lives Sometimes they manage to catch up sometimes it s their lives that pursue them **The African Book Publishing Record** ,2007 [Contemporary Authors](#) Lisa Kumar,2004-06 A biographical and bibliographical guide to current writers in all fields including poetry fiction and nonfiction journalism drama television and movies Information is provided by the authors themselves or drawn from published interviews feature stories book reviews and other materials provided by the authors publishers **Bleeding Edge** Ramsey Tomewyrm Lundock,2011-04-30
