Bombing Pompeii Nigel Pollard, 2020-11-18 Bombing Pompeii examines the circumstances under which over 160 Allied bombs hit the archaeological site of Pompeii in August and September 1943 and the wider significance of this event in the history of efforts to protect cultural heritage in conflict zones a broader issue which is still of great importance From detailed examinations of contemporary archival document Nigel Pollard shows that the bomb damage to ancient Pompeii was accidental and the bombs were aimed at road and rail routes close to the site in an urgent attempt to slow down the reinforcement and supply of German counter attacks that threatened to defeat the Allied landings in the Gulf of Salerno The book sets this event along with other instances of damage and risk to cultural heritage in Italy in the Second World War in the context of the development of the Allied Monuments Fine Arts and Archives the Monuments Men *Spectre of Invasion* Steve Dunn, 2025-06-30 Explores Britain's fear of a German coastal invasion during World War I examining raids defense efforts and the political and strategic fallout By 1900 the British government and public had become gripped by a new and growing fear of invasion not from traditional enemies such as France but from Germany Such terror was driven by lurid books and fanned by newspapers These anxieties sparked off a fight between those who wanted a defence based on a larger standing army with conscription to support it and those who believed the Royal Navy was sufficient to defend the coast and deprecated the expense and role of a standing land force With war declared in 1914 Britain's coastline came under attack Major German raids created terror and the fear of invasion drove naval and military planning and dispositions to protect Britain's littoral Coastal towns such as Scarborough Great Yarmouth Lowestoft Southwold and even the Outer Hebrides came under attack and landings by German troops were feared daily Running battles were fought with these attacking forces and both ships and lives ashore were lost *Spectre of Invasion* examines all of the raids made and the success or failure of them and relates these events from the point of view of naval and civilian participants It tells the story of the Royal Navy and its role in the defence of the British coast in the First World War and examines the strategic and political developments resultant from invasion fears And it considers how the plans laid for coastal defence fared under the test of conflict laying bare what it was like to be part of the battles around the British coast both as combatant and as citizen Finally it looks at Britain's inability to co-ordinate naval and military effort throughout the War This is a thought provoking book which combines a fast paced narrative with fascinating insights into Britain's predicament in the years leading up to and through the First World War It will appeal to anyone interested in this era of the country's history and the fear of invasion that stalked the country in those years **Public Works Manual**, 1998 *Caring for Those Who are Neglected and Forgotten: Psychiatry in Prison Environments* Norbert Konrad, Annette Opitz-Welke, Birgit Angela Völlm, 2020-05-13 *Ski Area Management*, 1989 **Moody's Industrial Manual**, 1994 Covering New York American regional stock exchanges international companies [Orthopedic Physical Assessment - E-Book](#) David J.
