

## Using this Study Guide template

This template provides you with a suggested format for your paper's Study Guide. (Note: this template does not cover administrative issues. These are covered in the Administration Guide template.)

The Study Guide template example is based on a paper being divided into two modules which are further divided into topics that relate to the number of learning outcomes for each module. However there are a number of ways in which to organise the material, weekly for instance, and a range of terminology that can be used to name these, such as topics, chapters, units, themes, sections or any combination of these.

We recommend that your study guides contain the following elements:

- How to study the materials
- Modules
  - Introduction
  - Learning outcomes
  - Guidance commentary
  - Summary
  - References cited and further recommended reading
- Final note

### Template customisation

The text within the template contains ideas and suggestions for you to consider when putting your guide together. Formatting instructions and 'fill-in-the-blanks', e.g. "Begin on an odd-numbered page" or "Title" are italicised and in square brackets. Please delete unwanted text.

### Assistance

Teaching Consultants in the Centres for Teaching and Learning are available for guidance on developing and writing your study guide, whether this is for Stream or in hardcopy. They will also provide feedback on your learning guide. This can be very useful as you begin writing.
