**Lake of Sins: Escape: A FREE YA dystopian, genetic engineering fantasy** L. S. O'Dea, 2014-12-26 Enjoy this FREE dystopian genetic engineering series by bestselling science fantasy author L S O Dea Every year after harvest the weakest are removed from the encampment None of them are ever seen or heard from again Trinity's only hope of escape lies in the forest She's not afraid of the creatures that live there There's nothing bigger than foxes in those woods except this time something is different This time she's hunted from land and sea by predators that should only exist in legends Surrounded by three enemies Surrender is her only option but which one should she choose A captivating dystopian read filled with human animal hybrids and creatures you've never even imagined Fans of Daniel Young Michael Anderle and Anna Hackett will love this free science fantasy genetic engineering story

Author Interview Q Why should someone read the Lake of Sins series If you're looking for your typical genetic engineering post apocalyptic survival thriller then you should look somewhere else This story has been described as a one of a kind world created in a unique dystopian society The characters in the series are human animal hybrids genetic mutations or evil experiments is yet to be revealed It's an entire new species of characters who don't fit in the typical genre categories of vampire werewolf witch fairies or even angels and demons The world of the Lake of Sins is segregated by class with the humans ruling supreme In book one Escape Trinity unwittingly sets off a collision between the classes when she flees into the forest to find and free her friend only to discover the horrible fate of her kind The books are fast paced with adventure and mutated creatures around every corner There are legends that are truth and societal truths that are well guarded lies All in all it's a unique and exciting read and you should give it a try I think you'll love it The Chimera Chronicles series also takes place in the world of the Lake of Sins These stories are prequels explaining how some of the characters who you meet in the Lake of Sins series became monsters Q Who should read the Lake of Sins series Although there's a strong female lead in Lake of Sins the audience for both series is broad I have fans male and female aged ten through eighty Anyone who likes gory thrillers that are dark a little disturbing and packed with action will enjoy these books However a word of caution is in order These books are not for the squeamish Some scenes are bloody and violent almost

falling into the horror genre but the interactions between the characters are funny poignant and loving and a love triangle develops as the stories progress Still I wouldn't recommend these books to anyone under thirteen without the parents reading the books first

**Lake of Sins: Hangman's Army: A dystopian, genetic engineering, adventure fantasy** L. S. O'Dea, 2017-01-24 A rebellion is brewing in the world of the Lake of Sins while Hugh Truent sits in prison days away from his execution After taking his findings about the genetic similarities between the classes to the Supreme Almighty and the Council Hugh had been arrested for treason and all his evidence had vanished as if made from smoke To protect his family he cut off all contact with the outside world while he sat in prison for over four years waiting for his execution He has no idea that some of his reports were leaked to the other classes and that civil war looms on the horizon Trinity and her friends have no hope of winning the war unless they can unite the classes In order to do that they need someone everyone will follow They need the one person all the classes trust and believe in They need Hugh That means they have to break him out of a maximum security prison and convince him to lead their army but that won't be easy because Hugh wants revenge and he's not going to let anything get in his way especially mouthy attractive know it all Trinity The action packed dystopian science fiction fantasy series continues with more fights more secrets about genetic engineering and more laughs

*Lake Of Sins: Betrayed: A dystopian, genetic engineering, adventure fantasy* L. S. O'Dea, 2017-07-03 War is coming to the forests of the Lake of Sins Hugh has to figure out how to win this war when there are dangers everywhere the River Men the Protective Services the Brush Men Cold Creepers just to name a few Plus he's going to have to break his word to Trinity or Meesus maybe both and that'll go over about as well as a hungry Tracker in a kindergarten class Trinity is tired of Hugh not including her in his war sessions She's an asset to the Allied Classes and he needs to realize that but before she confronts him she must choose between her attraction to Hugh and her feelings for Jethro Hopefully she can do that before hurting either of them and before her big heart gets her in trouble as Mirra predicted Jethro is changing He's now travelling with the Protective Services and it's like he was born to live in the forest to hunt to chase to kill As the wild in his blood grows stronger he's torn between what he was raised to believe and his growing desire for Trinity After each battle he wants to mate and the person he wants to mate with is Trinity When his blood is roaring through his body it doesn't matter that she isn't an Almighty It doesn't matter that interclass relations are wrong All that matters is that he possess her As the hunt for the Allied Classes heats up battles between the Protective Services and the forest predators spiral out of control pushing Jethro to the edge of his humanity More battles and more betrayals in book four of the dystopian genetic engineering fantasy series
