opposite phenomena This book discusses cases in which the two are closely connected It argues that literature is subject to the same mechanisms as other commercial products our experience of literary texts is prefigured by brands trademarks that identify a product and differentiate it from its competitors From the early modern period onwards literary authors and their texts are constantly branded and have been both the object and the trailblazer of a complex marketing process The authors of this volume analyze this branding process throughout the centuries focusing on the Netherlands To what extent is our experience of Dutch literature prefigured by brands and what role does branding play when introducing European authors in the Dutch literary field or vice versa By answering these questions Branding Books Across the Ages seeks to show how literary scholars understand branding a phenomenon that has long been intertwined with literature *Het Nederlandse boek in vertaling* ,1962 **Letterkunst** Battus,1993 **Last Call** Harry Mulisch,1987 International Librarianship: Aspects of international librarianship & education and training for librarianship J.
