5.3 Congruent Triangles

Mr. X is an inventive person. He takes pleasure in drawing a triangle and seeing if another person can recreate his drawing from piecemeal information. For each example, draw a diagram to support your answer. (Note: Begin each exercise by drawing a triangle. Measure the parts of your triangle that Mr. X gives you and try to draw a different triangle with those parts. If the two triangles are congruent, you drew Mr. X's triangle.)

- If Mr. X gives you the measures of the sides of a triangle, could you be sure you would draw Mr. X's triangle?

Yes, possible answer:

- If Mr. X gives you the measures of the angles of a triangle, could you be sure you would draw Mr. X's triangle?

No, possible answer:

- If Mr. X gives you the measures of one angle and of both sides of that angle, could you be sure you would draw Mr. X's triangle?

Yes, possible answer:

- If Mr. X gives you the measures of one side and both angles that share that side, could you be sure you would draw Mr. X's triangle?

Yes, possible answer:

- If Mr. X gives you the measures of one angle, one adjacent side, and the side opposite the angle, could you be sure you would draw Mr. X's triangle? (Hint: Start with an angle less than 90° and a long adjacent side.)

5.3 Congruent Triangles

Triangles are congruent if they have the same size and shape. Their corresponding parts, the angles and sides that are in the same position, are congruent.

Corresponding Parts	
Congruent Angles	Congruent Sides
$\angle A \cong \angle D$	$\overline{AB} \cong \overline{DE}$
$\angle B \cong \angle E$	$\overline{BC} \cong \overline{EF}$
$\angle C \cong \angle F$	$\overline{AC} \cong \overline{DF}$

To identify corresponding parts of congruent triangles, look at the order of the vertices in the congruence statement such as $\triangle ABC \cong \triangle DEF$.

Given: $\triangle XYZ \cong \triangle MPO$. Identify the congruent corresponding parts.

On Altering Architecture Fred Scott, 2007-12-10 In his new text Fred Scott brings together ideas of what might constitute a theory of interior or interventional design

Readings in Price Theory Richard E. Neel, 1973

Economic Theory and Public Decisions Robert Dorfman, 1997 This book reflects Robert Dorfman's important contributions to the analysis of economic theory and public decision making during the last forty years. The central concern of much of Professor Dorfman's career has been social decisions: how to reach them and how to judge them. This has meant that he has worked in a wide range of areas within economics including statistics, economic theory, natural resource and environmental economics, social decisions, and the history of economic thought. In more recent papers he has challenged the traditional concepts relating to the maximisation of social welfare. This outstanding collection of essays is a true reflection of the diversity of Robert Dorfman's interests and the depth of his economic knowledge. It will appeal to academics and students interested in economic theory, public sector economics and environmental economics and to historians of economic thought.

Review of economics and statistics, 1954

The Review of Economics and Statistics, 1954 The purpose of the Review is to promote the collection, criticism and interpretation of economic statistics with a view to making them more accurate and valuable than they are at present for business and scientific purposes.
