[Make Science Fun: Experiments](#) Jacob Strickling, 2017-11-06 Make Science Fun 2 intended for an older more serious age group of 8 15 is designed for children to do actual science experiments not just science activities at home Most science experiment books aren t experiment books at all They mostly contain fun science activities which are fun to do help learn science but a fun science activity isn t always an experiment A science experiment sets out to answer a question or solve a problem using a fair and controlled test To count as a science experiment you need to take measurements make observations

and control variables With space to write hypotheses record results make observations and draw graphs required Make Science Experiments is a strong foundation on which to build student awareness of the importance of science in everyday lives SELLING POINTS Science experiments for the kitchen garage or workshop bathroom and garden Bonus projects perfect for a science fair or school project Projects using only basic products that can be found in every home kitchen or bathroom Make Science Fun banishes the science is boring stereotype through fun experiments that children can do alone or with friends or parents The author s YouTube channel **Alien Worlds** David A. Aguilar,2013 Considers the plausibility of alien life and what creatures living on extrasolar planets might be like drawing on scientific sources to depict alien creatures who have adapted to the unique characteristics of their respective environments **The Peace Project** Kay Wills Wyma,2021-05-18 How often in a given day do you feel rushed judged put upon or ignored It s tempting to respond to the slights and indignities of life with bitterness resentment frustration or sadness But what if there s a better way Enter The Peace Project and its potent mixture of practicing thankfulness kindness and mercy With short digestible chapters and plenty of practical application The Peace Project demonstrates that lasting inner peace comes from outward practices seeing others as well as ourselves not as obstacles to overcome or objects against which to compete or compare but as people of great worth This is no if then theology where God s grace is earned by our actions It s a chance to dive headfirst into the endless depths of his peace where we can actually finally somehow breathe Welcome to the less than perfect sometimes hilarious consistently magical journey of practicing thankfulness kindness and mercy with Kay her kids and some brave friends
