The Kiss Danielle Steel, 2002-10-01 In her 53rd bestselling novel Danielle Steel explores how a single shattering moment can change lives forever The Kiss is at once a moving testament to the fragility of life and a breathtaking story about the power of love to heal to free to transform and to make broken spirits whole On a warm June evening a red double decker bus full of passengers speeds down a London street A few blocks away a man and a woman climb into a limousine reveling in a magical evening of dancing and champagne As their driver pulls into an intersection the couple shares their first searching kiss For a moment etched in time all stands still until in a flash of metal and glass their limousine is struck at full speed crushed under the bus's tremendous weight And a long journey begins toward healing toward hope toward dreams of an infinite future Isabelle Forrester is the exquisite wife of a prominent Parisian banker who has long since shut her out of his heart For lonely years Isabelle has lived a life of isolation pouring her passions into caring for her desperately ill son Teddy and into making their Paris home as happy as possible for her teenage daughter Sophie Isabelle allows herself one secret pleasure a long distance friendship by telephone with an American man a Washington power broker who travels in the highest circles of politics and who like Isabelle is trapped in an empty marriage
