Convention Collective Nationale De La Banque:

Banque AFB, 2004-01-01 Banque et marchés financiers Guy Caudamine, Jean Montier, 1997-12-31T23:00:00+01:00 La banque et les marchés financiers occupent une place majeure dans l'économie du pays et dans les échanges entre les hommes. Pour chacune des activités bancaires et financières cet ouvrage présente clairement les aspects économiques, juridiques, les techniques et leurs évolutions. Un nouveau système bancaire français est construit dans la perspective de l'Euro. Les activités traditionnelles voient la collecte de l'épargne se diversifier, le crédit s'adapte au plus près des besoins des clients. Quant aux nouvelles techniques financières et aux produits dérivés ils accompagnent l'essor de la Bourse et des marchés financiers sur lesquels les banques interviennent massivement. Les moyens de paiement avec le développement des échanges et des technologies deviennent une véritable industrie. Les modifications des comportements ont conduit les banques au marketing bancaire qui a introduit le client au cœur de leur stratégie. Le fonctionnement interne d'une banque est également étudié tant par les aspects comptables de contrôle et de gestion que par son système informatique et ses ressources humaines. Enfin la dernière partie fait le point des forces et faiblesses du secteur bancaire français. La veille des restructurations elle contient une monographie des dix principaux groupes bancaires. Cet ouvrage présente simplement l'état de l'art en matière bancaire, il intéresse les professionnels de la banque qui y retrouvent en un seul manuel leurs connaissances allant de la banque rurale aux marchés financiers. Les responsables d'entreprises et d'organisations professionnelles disposent d'un recueil facilement accessible permettant de répondre aux questions bancaires auxquelles ils sont confrontés. Il s'adresse bien sûr aux étudiants qui découvrent ou approfondissent les techniques d'un monde complexe et rigoureux. Il concerne enfin un large public par la simplicité de sa rédaction.

Convention collective nationale de travail du personnel des banques Association professionnelle des banques et le syndicat général du personnel et retraités des banques du Maroc C. G. T., 1948 *La gestion des ressources humaines dans les banques européennes* Denise Annandale-Massa, Hugues Bertrand, 1989-12-31T23:00:00+01:00 Les banques européennes traversent aujourd'hui une période de turbulences. L'époque où elles pouvaient se contenter de gérer des opérations courantes est révolue. Ce sont désormais des sociétés de services aux compétences larges qui mettent en œuvre des stratégies commerciales et financières complexes. Le métier de banquier change. L'enquête menée par Denise Annandale-Massa et Hugues Bertrand montre comment sur le terrain les établissements européens sont confrontés à ce problème. Chacun d'eux conserve des spécificités héritées de son histoire nationale et de l'évolution de ses relations sociales. Mais tous mettent en place des réponses qui vont dans le même sens : changement des politiques de recrutement et de formation, transformation des parcours professionnels, renforcement des compétences managériales. Ces pratiques nouvelles provoquent des hésitations et des résistances car elles impliquent une véritable métamorphose des systèmes d'emploi existants. Cet ouvrage décrit les facettes et les incertitudes de cette transition délicate. Sous les faits observés, elle analyse et identifie les évolutions et les choix porteurs d'avenir.
