**Daniel John Stine**

## **Civil Autocad Practice Drawing Exercises:**

**Harnessing AutoCAD 2004 Exercise Manual** Thomas A. Stellman, Krishnan, Stellman, G. V. Krishnan, 2004 This most recent edition of Harnessing AutoCAD continues in the tradition of previous versions by providing the widest selection of discipline specific exercises and projects for learning how to use today's leading desktop design and drawing software A smart how to and reference manual Harnessing AutoCAD 2004 contains up to the minute functionality including extensively illustrated examples of prompt response sequences whereby certain commands prompt users for additional information such as coordinates or dimensions to complete a function The companion Exercise Manual has been also been updated featuring problems in complete project format for practicing concepts and commands learned in chapter or section as well as for testing single concepts and commands This complete package is appropriate for either the novice or advanced user The companion Exercise Manual provides more than 200 discipline specific exercises and projects for learning how to use today's leading desktop design and drawing software Updated to AutoCAD 2004 the manual features problems in complete project format that help readers practice concepts and commands modeled on AutoCAD use in the architectural mechanical electrical and civil fields

**The AutoCAD Book** James M. Kirkpatrick, 2005 This is either a lecture or self paced book on drawing that has enough exercises for several semester length courses using the AutoCAD 2005 program Individual commands are explained as they are used to make a recognizable drawing not as isolated descriptions that have little connection to where they are used The exciting improved concepts from AutoCAD 2004 such as gradient hatch and plotting rendered drawings directly from AutoCAD are covered along with commands new to AutoCAD 2005 including TABLE SHEET SETS and PALETTE customizing The new chapter with sketches that can be used for approximately 200 exercises is a welcome source of problems for the busy instructor These problems range from simple to complex
