remains outside the literary canon In this pioneering book Nigel Leask studies the Romantic obsession with these antique lands drawing generously on a wide range of eighteenth and nineteenth century travel books as well as on recent scholarship in literature history geography and anthropology Viewing the texts primarily as literary works rather than transparent adventure stories or documentary sources he sets out to challenge the tendency in modern academic work to overemphasize the authoritative character of colonial discourse Instead he addresses the relationship between narrative aesthetics and colonialism through the unstable discourse of antiquarianism exploring the effects of problems of creditworthiness and the nebulous epistemological claims of curiosity a leitmotif of the accounts studied here on the contemporary status of travel writing Attentive to the often divergent idioms of elite and popular exoticism *Curiosity and the Aesthetics of Travel Writing* plots the transformation of the travelogue through the period as the baroque particularism of curiosity was challenged by picturesque aesthetics systematic geographical narrative and the emergence of a transcendental self axiomatic to Romantic culture In so doing it offers an important reformulation of the relations between literature aesthetics and empire in the late Enlightenment and Romantic periods
