* The type of connection and connected unit determines whether an externally connected unit can be operated by the RCD 510.

* only in units with FM function

* optional equipment

Caution

- Inserting a new CD while an inserted CD is being ejected can damage the CD drive in the unit. Please note that the ejection process takes a few seconds. The protection barrier in front of the CD slot is open while this is happening.

- To avoid damage, do not press the knobs and buttons of the unit hard. Light pressure is sufficient to operate the unit. Note that the steering/push knobs have breaking points to reduce the risk of injury in the event of an accident.

- Do not use pointed or sharp objects to operate the touchscreens. Light pressure is sufficient to operate the unit. If an item displayed on the screen cannot be called up by pressing it, it is currently not available.

Note

- The unit can play a range of different data media and various audio formats -> page 27.

- Interference noise may be heard when using a mobile telephone in the vehicle.

- In vehicles with a wireless aerial, the reception could be impaired if too many external antennas are attached to the windows.

- In some vehicles with a parking distance warning system (PDWS), the volume of the audio source currently playing is automatically reduced when the vehicle is put into reverse gear so that the driver can hear the acoustic signals given by the parking distance warning system (PDWS) better -> page 5, "Volume reduction for parking distance warning system (PDWS)".
