Kent-Drury,2005-03-30 Presenting web sites from around the world covering much of the world s literature this book provides creative and interesting thinking activities to enhance student understanding of literature and culture and to promote critical thinking This book will be very useful to teachers of world history and literature at the senior high school and undergraduate level Part of a well reviewed series of titles Using Internet Primary Sources to Promote Critical Thinking carries on the tradition of excellence in instructional tools Grades 9 12 Mr Harris Makes It Up F X Prendiville,2023-09-28 Graham Harris is a newly qualified teacher in the Manchester of 1977 a city caught in the crossfire between rising far right sentiment and the Anti Nazi League Teaching short stories in the EFL-Classroom Berenice Walther,2008-02-29 Seminar paper from the year 2007 in the subject American Studies Literature grade 1 3 University of M nster course Teaching Short Stories in the EFL Classroom language English abstract The short story has its origins in traditional oral storytelling Many of the world s greatest literary classics such as El Cid La Chanson de Roland Beowulf or the Odyssey were originally orally transmitted In most cases the story has undergone many modifications in the course of the telling processes still they are today s primary testimonies for language history culture and people of the past They were told in rhyming and therefore functioned as a mnemonic device for easier recall In Europe the short story began to evolve from oral storytelling in the early 14th century with Chaucer s Canterbury Tales and Boccacio s Decamerone books consisting of individual short stories within a larger frame story Only in the 19th century modern short stories began to be considered a proper genre Print magazines represented a strong market for short fiction theories related to this began to surge as for example Edgar Allan Poe s The Philosophy of Composition Nowadays the number of commercial magazines publishing short stories has decreased but they appear to have found their place in online publications Today reading has become a minor activity in people s lives with globalisation technological progress and a fast growing media industry In schools pupil s interest is increasingly difficult to stimulate especially when it comes to literature in the English Second Language classroom Students are used to fast information input without necessarily having to become active themselves they lose concentration easily when the learning process takes too long or they lose patience when they do not understand right away The use of short stories in the English Foreign Language classroom is one possibility to respond to this problem teachers of foreign languages have to face Therefore this paper is going to define the genre of the short story as such to

create a basis for the following presentation of the benefits of short stories for the North Rhine Westphalian English Language Classroom In the next step the curricula and guidelines are taken into consideration in order to develop some ideas on how to implement The Machine that Won the War by Isaac Asimov in class These will be integrated into a lesson plan with several activities around the story There are several theoretical works dealing with the lecture of short stories starting with Poe's work mentioned above Allen Walter's The Short Story in English Charles E May's The Short Story The Reality Artifice or Frank Myszor's The Modern Short Story Some articles have been written e.g. by Rüdiger Ahrens Die bisherige Rolle der Short Story im Englischunterricht der Sekundarstufe II dealing with the use of short stories as a way of teaching literature Most has certainly been written about didactics of English in German classrooms such as Wolfgang Gehring's Englische Fachdidaktik Eine Einführung Englisch lernen und lehren Didaktik des Englischunterrichts by Johannes P Timm or Egon Werlich's Praktische Methodik des Fremdsprachenunterrichts mit authentischen Texten
