## Chapter V Logos Forums:

Jeremiah Jack R. Lundbom, 2015-09-09 This book on Jeremiah seeks to place before a broad audience of students and lay readers one of the truly great Hebrew prophets and extraordinary individuals of the ancient world It lifts up major themes preserved in the book bearing Jeremiah's name one of the most prominent being Jeremiah's understanding of himself as the prophet like Moses Jeremiah remained faithful to his calling during the final days of Israelite nationhood when the remnant of a once great nation fell to Nebuchadnezzar and the Babylonians in 586 BC He suffered along with everyone else but was nevertheless numbered among the survivors From his confinement in the court of the guard he gave a dispirited remnant many of whom would subsequently make the long journey into faraway exile unambiguous hope for the future announcing just before the nation's fall a new covenant that God would make with his people in future days *Zope* Martina

**Linguistic Forum**, 1982 **Infrastructure Communication in International Relations** Carolijn van Noort, 2020-11-09

This book demonstrates how infrastructure projects and the communications thereof are strategized by rising powers to envision progress to enhance the actor's international identity and to substantiate and leverage the actor's vision of international order While the physical aspects of infrastructure are important infrastructure communication in international relations demands more scholarly attention Using a case study approach Carolijn van Noort examines how rising powers communicate about infrastructure internationally and discusses the significance of these communication practices The four case studies include BRICS's summit communications about infrastructure Brazil's infrastructure promises to Africa China's communication of the Belt and Road Initiative in East Africa and Kazakhstan's news media coverage of China's Belt and Road

Initiative Van Noort highlights the fact that the link between infrastructure identity and order making is arbitrary and thus contested in practice with rising powers operationalizing infrastructure communication in international relations in varied ways She argues that both communication organization and the visibility of strategic narratives on infrastructure influence the international communication of infrastructure vision and action plans with different levels of success Infrastructure Communication in International Relations is a welcome and timely book of interest to students and scholars in the fields of international relations global communications and the politics of infrastructure
