Reason and the Lover John V. Fleming, 2014-07-14 This textual and intertextual analysis of the dialogue in Jean de Meun's Roman de la Rose combines specific close readings of texts with a rich theoretical argument to establish Reason's moral primacy in the poem's economy Originally published in 1984 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Children's Literature in**

Translation Jan Van Coillie, Walter P. Verschueren, 2014-07-16 Children's classics from Alice in Wonderland to the works of Astrid Lindgren Roald Dahl J K Rowling and Philip Pullman are now generally recognized as literary achievements that from a translator's point of view are no less demanding than serious adult literature This volume attempts to explore the various challenges posed by the translation of children's literature and at the same time highlight some of the strategies that translators can and do follow when facing these challenges A variety of translation theories and concepts are put to critical use including Even Zohar's polysystem theory Toury's concept of norms Venuti's views on foreignizing and domesticating translations and on the translator's in visibility and Chesterman's prototypical approach Topics include the ethics of translating for children the importance of childhood images the revelation of the translator in prefaces the role of translated children's books in the establishment of literary canons the status of translations in the former East Germany questions of taboo and censorship in the translation of adolescent novels the collision of norms in different translations of a Swedish children's classic the handling of cultural intertextuality in the Spanish translations of contemporary British fantasy books strategies for translating cultural markers such as juvenile expressions functional shifts caused by different translation strategies dealing with character names and complex translation strategies used in dealing with the dual audience in Hans Christian Andersen's fairy tales and in Salman Rushdie's Haroun and the Sea of Stories Shakespeare's Monarchies

Constance Jordan, 2019-05-15 Constance Jordan looks at how Shakespeare through his romances contributed to the cultural debates over the nature of monarchy in Jacobean England Stressing the differences between absolutist and constitutionalist principles of rule Jordan reveals Shakespeare's investment in the idea that a head of state should be responsive to law and not be governed by his unbridled will Conflicts within royal courts which occur in the romances show wives daughters and servants resisting tyrannical husbands fathers masters and monarchs by relying on the authority of conscience These loyal subjects demonstrated to Shakespeare's diverse audiences that the vitality of the body politic its dynastic future and its material productivity depend on a cooperative union of ruler and subject Drawing on representations of servitude and slavery in the humanist and political literature of the period Jordan shows that Shakespeare's abusive rulers suffer as much as they

impose on their subjects Shakespeare's Monarchies recognizes the romances as politically inflected texts and confirms Shakespeare's involvement in the public discourse of the period

The Modern World Dictionary of the English Language ..., 1896 Medieval Jewish Philosophy and Its Literary Forms Aaron W. Hughes, James T. Robinson, 2019-07-11

This well-written accessible essay collection demonstrates a maturation in Jewish studies and medieval philosophy. Choice

Too often the study of philosophical texts is carried out in ways that do not pay significant attention to how the ideas contained within them are presented, articulated and developed. This was not always the case. The contributors to this collected work consider Jewish philosophy in the medieval period when new genres and forms of written expression were flourishing in the wake of renewed interest in ancient philosophy. Many medieval Jewish philosophers were highly accomplished poets, for example, and made conscious efforts to write in a poetic style. This volume turns attention to the connections that medieval Jewish thinkers made between the literary, the exegetical, the philosophical and the mystical to shed light on the creativity and diversity of medieval thought. As they broaden the scope of what counts as medieval Jewish philosophy, the essays collected here consider questions about how an argument is formed, how text is put into the service of philosophy and the social and intellectual environment in which philosophical texts were produced

A New English Dictionary on Historical Principles James Augustus Henry Murray, Henry Bradley, Sir William Alexander Craigie, Charles Talbot Onions, 1887 *A New English Dictionary on Historical Principles*, 1887 **Webster's International Dictionary of the English Language** Noah Webster, 1894 *Foucault and Animals* Matthew Chrulew, Dinesh Joseph Wadiwel, 2016-11-01

Foucault and Animals is the first collection of its kind to explore the relevance of Michel Foucault's thought for the question of the animal. Chrulew and Wadiwel bring together essays from emerging and established scholars that illuminate the place of animals and animality within Foucault's texts and open up his highly influential range of concepts and methods to different domains of human-animal relations, including experimentation, training, zoological gardens, pet-keeping, agriculture and consumption. Touching on themes such as madness and discourse, power and biopolitics, government and ethics and sexuality and friendship, the volume takes the fields of Foucault studies and human-animal studies into promising new directions.
