Corporate Capital Christos Pitelis, 2004-08-19 This book looks at the role of the modern corporation in advanced capitalist countries. In particular, it considers corporate control and share ownership and the impact of these on consumers' choice, the mobilization of financial capital, the saving function, and the question of the potentially inherent tendency towards stagnation and crisis. The author suggests that there is a tendency towards social ownership of the means of production in modern capitalist economies, directly via share purchase and indirectly via e.g. occupational pension funds, while at the same time control and appropriation remain vested in a small minority. This is shown to affect financial capital accumulation and the saving function, since the competition between giant corporations encourages their controllers to increase corporate saving above the level desired by small shareholders who are suggested to be unable fully to compensate for such increases by their actions. *New York Court of Appeals. Uwe Erb, Harald Keller, 2001-03-12 With 200 000 entries in over eighty different fields *Scientific and Technical Acronyms, Symbols and Abbreviations* is the most comprehensive reference of its type, covering more scientific and technical disciplines than any other available book. This invaluable resource will help scientists, engineers, and researchers understand and utilize current terminology in almost any field, from aeronautics to zoology. All accepted abbreviations, acronyms, and symbols are included, from the most obscure to the most common, as well as an appendix that provides important lists of units, systems of units, conversion factors, and prefixes. Science writers, journalists, translators, interpreters, anyone working in or around the sciences will find this a helpful, easy-to-use guide to difficult technical jargon. Entries are listed in alphabetical order and are defined according to the field in which they are currently in use. Multiple definitions are listed for abbreviations and acronyms that may be in use in more than one field. For instance, the entry for the abbreviation 'cb' would show several meanings: CB for Canada, Balsam, Cb for cerebellum, and c B for crystalline boron, among others. Entries for terms in languages other than English are included, as well as abbreviations for all known scientific and technical journals. Simple, comprehensive, and up-to-date. *Scientific and Technical Acronyms, Symbols and Abbreviations* is a complete and vital reference for professionals in almost any scientific or technical discipline. *StarBriefs 2001*, 2012-12-06 This compilation probably looks like one of the craziest things a human being could spend his or her time on. Yet nobody would wonder at someone taking a short walk every day after twenty-five years; that person would have covered a surprisingly long distance. This is exactly the story behind this list, which appeared first as a few pages within the directory *StarGuides* or whatever name it had at that time, and as a distinct sister publication since 1990. The idea behind this dictionary is to offer astronomers and related space scientists practical assistance in decoding the numerous

abbreviations acronyms contractions and symbols which they might encounter in all aspects of the vast range of their professional activities including traveling Perhaps it is a bit paradoxical but if scientists quickly grasp the meaning of an acronym solely in their own specific discipline they will probably encounter more difficulties when dealing with adjacent fields It is for this purpose that this dictionary might be most often used Scientists might also refer to this compilation in order to avoid identifying a project by an acronym which already has too many meanings or confused definitions The Guide to Cooking Schools ,2005 **Resources in Education** ,1996 **Acronyms and Initialisms Dictionary** ,1973 California Community Colleges, Economic Development Program ,1998 **Dissertation Abstracts International** ,1996 The Guide to Cooking Schools ShawGuides, Incorporated,2001-08 **Signal** ,1992 **Choice** ,1973 **The Oil Weekly** ,1934 **San Francisco Public Schools Bulletin** ,1956 Resources in Education ,1996 Acronyms, Initialisms & Abbreviations Dictionary Gale Research Company,1976 **New Acronyms and Initialisms** ,1972 Covering aerospace associations biochemistry business and trade domestic and international affairs education electronics genetics government labor medicine military pharmacy physiology politics religion science societies sports technical drawings and specifications transportation and other fields **Acronyms, Initialisms & Abbreviations Dictionary, 1996** ,1995
