

Chapter 8 power and politics

- **Power:** the capacity that A has to influence the behaviour of B, so that B acts in accordance with A's wishes
- **Dependence:** B's relationship to A when A possess something that B requires
- The greater B's dependence on A, the greater A's power in the relationship.
- Dependence, in turn, is based on the alternatives that B perceives and the importance that B places on the alternative(s) that A controls. A person can have power over you only if he or she controls something you desire.

Bases of power

- 1) formal power; 2) personal power

1. Formal power

- based on an individual's **position in an organization**.
- **Coercive power:** a power base that is dependent on **fear of the negative results from failing to comply**
 - At the organizational level, A has coercive power over B if A can **dismiss, suspend, or demote B, assuming B values her job**.
 - If A can assign B work activities **B finds unpleasant**, or treat B in a manner **B finds embarrassing**, A possesses coercive power over B.
 - Coercive power comes also from withholding key information. People in an organization who have data or knowledge others need can make others dependent on them
 - **Eg.** threats of Demotion (reduction in rank), Bonus cuts, Salary cuts, loss of privileges, Suspension, Termination.
- **Reward power:** power that achieves compliance **based on the ability to distribute rewards** that others view as valuable
 - People will go along with the wishes or directives of another if doing so produces positive benefits; therefore, someone who can distribute rewards that others view as valuable will have power over those others.
 - **Eg.** financial rewards - such as **controlling pay rates, raises, and bonuses**
 - **Eg.** nonfinancial rewards - **offering recognition, promotions, interesting work assignments, friendly colleagues, and preferred work shifts or sales territories.**
- **Legitimate power:** power that a person receives as **a result of his or her position in the formal hierarchy** of an organization
 - Through a person's structural position
 - **Come from one's organizational roles or positions**
 - **Eg.** a boss can assign projects, a policeman can arrest a citizen, and a teacher assigns grades

2. Personal power

- Come from an individual's unique characteristics
- **Expert power:** influence **based on expertise, special skills or knowledge**
 - As jobs become more specialized, we become dependent on experts to achieve goals

Transforming Power Dietrich Keeschull, 2017-09-08 In 1934 Lewis Mumford critiqued the industrial energy system as a key source of authoritarian economic and political tendencies in modern life Recent debate continues to engage issues of energy authoritarianism focusing on the contest between energy driven globalization the spread of energy deregulation and the simultaneous consolidation of the oil coal and gas industries and the so called sustainable energy strategy that celebrates the local and community scale characteristics of renewable energy Including theoretical inquiries and case studies by distinguished writers Transforming Power is divided into three parts Energy Environment and Society The Politics of Conventional Energy and The Politics of Sustainable Energy It interrogates current contemporary energy assumptions exploring the reflexive relationship between energy environment and society and examining energy as a social project Some of these have promised a prosperous future founded upon technological advances that further modernize the modern energy

system such as inherently safe nuclear power environmentally friendly coal gasification and the advent of a wealthier cleaner world powered by fuel cells and the green technologies said by advocates to prefigure a revival of human scale development local self determination and a commitment to ecological balance br This volume offers a timely engagement of the social issues surrounding energy conflicts and contradictions It will be of interest to policymakers energy and environmental experts sociologists and historians of technology **P.O.W.E.R.
