TAKING NOTES

Use the annotation tools in your eBook to take notes on manifest destiny and the Mexican-American War.

The Mexican-American War

If YOU were there...

Your family are Californios, Spanish settlers who have lived in California for many years. You raise horses on your ranch. So far, you have gotten along with American settlers. But it has become clear that the American government wants to take over California. You hear that fighting has already started.

How might life change under American rule?

BUILDING BACKGROUND Mexican independence set the stage for conflict and change in the West and Southwest. At the same time, Americans continued to move westward, settling in the Mexican territories of Texas, New Mexico, and California. American ambitions led to clashes with Mexico and the people who already lived in Mexico's territories.

Manifest Destiny

"We have it in our power to start the world over again."

—Thomas Paine, from his pamphlet *Common Sense*

Americans had always believed they could build a new, better society founded on democratic principles. In 1839 writer John O'Sullivan noted, "We are the nation of human progress, and who will, what can, set limits to our onward march?"

Actually, there was one limit: land. From the beginnings of the colonies, Americans had been moving west in search of land and economic opportunity. At the end of the Revolution, the Land Ordinance of 1785 and the Northwest Ordinance of 1787 established the method for dividing and governing new territories. By the 1840s the United States had a booming economy and population. Barely 70 years old, the nation needed even more room for farms, ranches, businesses, and ever-growing families. Americans looked West to what they saw as a vast wilderness, ready to be taken. The regions of Oregon, New Mexico, and Texas were being settled by Americans, and the national government worked to annex those lands to the United States.
