La debilidad de creer Michel, de Certeau, 2006-01-01 La cuestión de Dios la fe y el cristianismo no dejaron de ocupar a Michel de Certeau esa cuestión que está en la fuente de una imposibilidad de satisfacerse con un solo tipo de saber es el origen del recorrido metódico de disciplinas lenguas antiguas historia filosofía y teología primero más tarde lingüística psicoanálisis antropología y sociología que caracteriza su obra Los textos reunidos en este volumen restituyen algunos momentos de una trayectoria de pensamiento y de vida marcados por la reflexión en torno de la relación entre cristianismo y modernidad

Reclaiming Liberation Theology: Desire, Market, Religion Jung Mo Sung, Marcella Althaus-Reid, Ivan Petrella, 2007-10-26 Jung Mo Sung has pioneered a theological analysis of economics in his previous publications developing a penetrating ethico religious critique of the international capitalist systems whose institutions he likens to altars Where ancient idolatry had visible altars the modern altar of the global market god is invisible but still demands human sacrifices in the name of objective desires Here Sung recovers theology's relevance for a world where the most dangerous idols those that sacrifice millions of people upon the altar of wealth have for too long been ignored by theology Desire Market Religion Sung investigates themes such as the struggle against social exclusion the relationship between economics and religion in the 21 century where global brands and global economies reign supreme and theology's role in the struggle against social exclusion and the giving of hope for plenty when the reality is scarcity

Cristianismo latinoamericano exculturado VV. AA., Christoph Theobald, Carlos Álvarez, Hernán Rojas, 2025-09-01

Puede el cristianismo desaparecer en Am rica Latina A n es posible pensar un futuro para el cristianismo En un continente marcado por la pluralizaci n religiosa la p rdida de relevancia de las instituciones y la crisis de credibilidad de la Iglesia la noci n de exculturaci n acu ada por Dani le Hervieu L ger para el contexto franc s apunta a que el cristianismo ya no ser a capaz de proveer horizontes de sentido colectivos m s all de construcciones exclusivamente individuales The Social Scientific Study of Exorcism in Christianity Giuseppe Giordan,Adam Possamai,2020-06-01 This book presents an academic analysis of exorcism in Christianity It not only explores the crisis and drama of a single individual in a fight against demonic possession but also looks at the broader implications for the society in which the possessed lives In recognition of this coverage includes case studies from various geographical areas in Europe North and South America and Oceania The contributors explore the growing significance of the rite of exorcism both in its more structured format within traditional Christian religions as well as in the less controlled and structured forms in the rites of deliverance within Neopentecostal movements They examine theories on the interaction between religion magic and science to present new and groundbreaking data on exorcism The fight against demonic possession underlines the way in which changes within the religious field such as the rediscovery of typical practices of popular religiosity challenge the expectations of the theory of secularization This book argues that if possession is a threat to the individual and to the equilibrium of the social order the ritual of exorcism is able to re establish a balance and an order through the power of the exorcist This does not happen in a social vacuum but in a consumer culture where religious groups market themselves against other faiths This book appeals to researchers in the field

han sufrido no sólo porque se atreven a hacer oír su voz sino porque están en condición de construir una diferente versión de esa escena habitual donde el poder fascina. Tomar la palabra como mujeres transforma la materia de lo pensable. Nos impone incluir aquello que en el discurso no era dicho porque tampoco había sido pensado.

Reflexiones sobre la violencia en las escuelas Alfredo Furlan, Cathérine Blaya, Carlota Guzmán, Míguez Daniel, 2014-03-26 En los últimos tiempos se han publicado muchos libros sobre la violencia en la escuela. Mientras la presión mediática subsista seguramente se seguirá publicando este es uno más pero de una importancia singular. Lo es por la calidad de sus autores que son destacados especialistas del tema o también expertos de primera línea en teorías que se ofrecen como miradas pertinentes. Es un libro que invita a transitar caminos tan ricos hasta hoy poco utilizados en el amplio y complejo tema de la violencia en la escuela. El libro no se había propuesto originalmente orientar la práctica de los actores escolares pero el llamado del campo pedagógico es tan fuerte que se aprecia en varios capítulos un deslizamiento hacia la búsqueda de respuestas sobre el quehacer cotidiano. La violencia en la escuela es un fenómeno de larga data pero que está en boca de muchos agentes sociales y de los propios alumnos desde hace relativamente poco tiempo. Todo parece indicar que se ha incrementado en los últimos años la presencia de conductas agresivas productoras de daños físicos psicológicos y socio culturales entre los estudiantes o los profesores tradicionalmente eran estos últimos quienes imponían castigos corporales a los alumnos pero actualmente parece que es bastante común que sean víctimas de alumnos o de padres. Sin embargo no tendremos la plena seguridad de poder sustentar estos datos mientras no avancen las investigaciones de campo. Y en tanto estas no se nutran de las perspectivas que brindan las ciencias sociales o la filosofía la psicología o la misma pedagogía. Esperamos que este libro contribuya a la alimentación de las definiciones necesarias en el camino de la reflexión y la investigación de los problemas de violencia en las escuelas.

Y es en esas tres dimensiones donde existe una necesidad global de acción que exige actores de competencia global. A partir de una teoría de los sujetos responsables que complementa nociones clásicas de la filosofía política inter-sujeto y poder instituciones y constituciones Otfried Höffe desarrolla aquí una teoría del ciudadano y de la sociedad que contempla los tres roles imprescindibles de la ciudadana: la ciudadana económica que crea las condiciones materiales y financieras sin las cuales ninguna comunidad puede vivir la ciudadana política que entra a la necesaria expansión de la participación ciudadana y presenta las virtudes de los ciudadanos.

y de los valores de una educación democrática y la necesidad de un actuar global que no debe verse como alternativo de los roles anteriores sino complementario de ellos la ciudadanía del mundo. Importante contribución para una ética eminentemente práctica y política de la comunidad de los ciudadanos esta obra se ocupa no solamente de las definiciones teóricas de los tres roles de la ciudadanía en la era global sino que atiende cuestiones actuales y urgentes que dice la tolerancia respecto de las minorías culturales la representatividad puede coexistir con la democracia directa se debe aceptar la hegemonía norteamericana o propiciar un orden jurídico mundial equitativo que significa desarrollo cuáles son y cuáles deben ser las relaciones entre trabajo lucro y justicia social
