

What document version control looks like

Balancing auto-save and manual strategies

Employees should be able to retrieve important past drafts without storing too many versions in cloud environments.

Major and minor versioning

This approach involves labeling documents as major (1.0, 2.0, etc.) and minor (2.1, 2.2, etc.) versions.

Controlled documents

Content teams denote one official version for each document and maintain an archive of relevant drafts.

Add labels

Employees can add relevant labels—including location and project status—to track document versions.

Purging old copies

Content teams can get rid of old, irrelevant drafts that offer no business value.
